10 Successful Colombian executives Working Abroad gives us a portrait of how a group of Colombian executives was able to overcome language barriers and develop a convincing and fluid discourse which has allowed them to stand out and empower themselves in the global entrepreneurial arena. Entrepreneurs, intrapreneurs, high executives and professionals alike need tools in order to dominate the interior voice which inhibits their free and assertive functioning in English. The content of this book brings us closer to successful experiences and models that we can all learn from. It shows us cases where the ability to express ideas in English has enabled these skilled executives to open the doors of excellence and achievement in their careers.

Market Leader Upper Intermediate Practice File for Pack John Rogers, 2011-01-24      Market Leader Bill Mascull, 2002      Market leader David Cotton, David Falvey, Simon Kent, 2001      Action Research into Teaching English in Russia's Professional Context Natalia A. Gunina, 2015-10-13. This book is a result of the investigative attempts of linguistics professionals to identify and meet the challenges of developing communicative competence in future engineers, economists and other such specialists. The unifying feature of all the contributions brought together here is the active involvement of the authors in practical instruction of English for specific professional purposes at the tertiary bachelors and masters programs level in Russia. This volume covers a number of relevant areas in this field including new developments in methodology, approaches to course and materials design and the contribution of language theory to foreign language teaching in a professional context. The unique teaching approach advocated in this book denounces the traditional practice of transferring

classical methodology of communicative oriented teaching to language classes for students with a non linguistic or non teaching professional orientation The underlying idea of this volume is that a change in professional context implies a change in language teaching methodology including materials techniques and target competences The ideas and experiences analysed here will appeal to anyone interested in the current trends in foreign language teaching and learning and particularly to educationalists
