Bioetica:

Ibero-American Bioethics Léo Pessini, Christian Paul de Barchifontaine, Fernando Lolas Stepke, 2009-12-16 This book is the first in a series of planned volumes focused on preserving the character of the development of bioethics in particular cultural contexts As the first of these volumes Leo Pessini Christian de Paul de Barchifontaine and Fernando Lolas Stepke s work has succeeded well It has brought together accounts by scholars who were crucial to the emergence of bioethics in the Ibero American cultural domain This trail blazing work in the history of bioethics will be of enduring significance I am deeply in their debt for having shouldered this far from easy task Bioethics is the product of very particular socio historical developments Most prominent among them have been 1 the secularization of the dominant culture of North America Western Europe and now Central and South America as well 2 a deflation of the status and authority of physicians as moral authorities able to guide their own profession and 3 the salience of a post traditional animus that gives central place to persons as isolated atomic sources of moral authority Bioethics initially took shape in North America as a post Christian post professional post traditional social movement This bioethics sought to establish a moral discourse for the public forum a moral practice able to give practical guidance in hospitals and other institutions and a body of undergirding and justifying theoretical reflections

Bioethics and Moral Content: National Traditions of Health Care Morality H. Tristram Engelhardt Jr., L.M. Rasmussen, 2013-11-11 This volume explores the plurality of moral perspectives shaping bioethics It is inspired by Kazumasa Hoshino s critical reflections on the differences in moral perspectives separating Japanese and American bioethics It offers a rich perspective of the range of approaches to bioethics and brings into question whether there is unambiguously one ethics for bioethics to apply

Annals of Bioethics: Regional Perspectives in Bioethics Mark J. Cherry, John F. Peppin, 2005-08-10 Regional Perspectives in Bioethics illustrates the ways in which the national and international political landscape encompasses persons from diverse and often fragmented moral communities with widely varying moral intuitions premises evaluations and commitments
