Interpersonal Meaning in Multimodal English Textbooks Yumin Chen,2022-03-10 Exploring multimodality in English language teaching textbooks this book focusses on how language and image are co deployed within these resources in order to create and convey interpersonal meaning Presenting cutting edge research in appraisal studies and multimodal discourse analysis Yumin Chen uses systemic functional linguistics and social semiotics to investigate how different voices are

introduced and aligned inter modally in textbooks extending the appraisal systems of engagement and graduation across language and image The book also demonstrates how linguistic and visual semiotic resources co instantiate attitude paying special attention to the attitudinal dimension of curriculum goals for school students of different ages Furthermore it examines how different kinds of coding orientation are deployed in various educational contexts and different constituent genres Demonstrating how the linguistic and semiotic theories can be adapted to analyze multimodal texts across language and image Interpersonal Meaning in Multimodal English Textbooks offers new perspectives on how to employ multimodal resources to enhance the teaching and learning of English as a foreign language **Secondary Textbook Review** ,1988 This book is intended as a resource for teachers and curriculum developers who select textbooks for secondary English courses It includes a compilation of 32 factual textbook reviews obtained from the application of a review instrument which was based on the California Model Curriculum Standards Grades Nine through Twelve English Language Arts and the English Language Arts Framework for California Public Schools Kindergarten through Grade Twelve The instrument described in the book was applied to selected English composition grammar and reading literature textbooks The book suggests that the resulting reviews can be used by teachers as a screening device to reduce the number of books they review and pilot studies they conduct thus educators will have more time to do in depth reviews of two or three textbooks which appear to match their course requirements and their students academic needs The book also states that the review instrument can be adapted by districts to reflect their own English objectives and test results Every review in the book includes two parts and a publisher s description which appears in the Appendix a section which depicts the extent to which the emphasis on content and process is given to each of the topics in the textbooks reviewed and a section which includes topics on content and processes which might be found only in teachers editions The book does not make assessments regarding the quality of the books reviewed but rather provides information which teachers may find useful in making quality judgments and selecting specific textbooks for English programs SR **English Course of Study for the High Schools of Oregon** Oregon.
