Aphasia And Language Theory To Practice:

Aphasia and Language Stephen E. Nadeau, Leslie Janine Rothi, Bruce Crosson, 2000-09-13 This groundbreaking work brings together leading scientist practitioners to review what is known about aphasia and to relate current knowledge to treatment Integrating traditional linguistic formulations with new insights derived from cognitive neuroscience this volume explores the neuropsychological bases of both normal and pathologic language It reflects an understanding of brain structure and function based on new developments in connectionist modeling and functional neuroimaging [The Treatment of Aphasia](#) Christopher Code, Dave J. Müller, 1995 A survey of the current state of the art of aphasia therapy presenting theoretical views and applications and covering the manifestations of acquired language impairment in all modalities for students clinicians and researchers in the field Sections on treating the individual linguistic and functional perspectives and cognitive and neuropsychological approaches deal with subjects such as psychotherapy reading theories and computer based therapy Annotation copyright by Book News Inc Portland OR [Working with Global Aphasia](#) Sharon Adjei-Nicol, 2023-03-21 Global aphasia is the most severe and disabling form of aphasia yet it has had the least attention within aphasia research and rehabilitation This practical book provides the reader with a comprehensive understanding of the topic based on both clinical observations and the literature to date Uniquely it covers not only the severe language impairments observed in global aphasia but also the co occurring cognitive impairments that often present an additional challenge when working with this population This book offers A comprehensive understanding of the clinical characteristics of global aphasia illustrated with real case examples A theoretical overview of the domains of cognition and discussion of the role cognitive deficits play in the clinical presentation of people with global aphasia Critical analysis of the research evidence on global aphasia An exploration into the strengths and limitations of common methods used to assess language cognition and functional communication in global aphasia New ways of approaching assessment and treatment which consider the impact of cognitive difficulties Detailed suggestions of direct and indirect treatment tasks and approaches that can be used with this population including novel cognitive tasks This accessible text will provide both experienced speech and language therapists and students new to the subject with the knowledge skills and tools to work effectively with people with global aphasia in a range of clinical settings It will also be an essential resource for anyone considering research with this challenging but highly rewarding population **Scientific Realism in Studies of Reading** Alan D. Flurkey, Eric J. Paulson, Kenneth S. Goodman, 2020-08-13 This book provides research based insights that deepen and broaden current understandings of the nature of reading Informed by psycholinguistic and sociolinguistic views of reading as meaning construction the studies build on principles of scientific realism an approach to inquiry that incorporates and values a wide variety of methods of observation to find the most inclusive ecologically valid description of the reading process as it is observed in a variety of contexts from a wide range of perspectives Focusing on how facts are discovered developed and used in the construction of knowledge about reading a

data driven and theory driven construction that results from observing the reading process with a variety of tools methods disciplines and conceptual frameworks scientific realism goes beyond rationalism and experimentation to include studies of events and experiences but still satisfies even the most narrow definitions of what state and national lawmakers refer to as reliable and replicable research on reading Each study in this volume breaks ground for a new line of reading research underpinned by the theory of reading based in scientific realism Scientific Realism in Studies of Reading is directed to reading researchers teacher educators reading specialists special educators graduate students and related education professionals in the disciplines of applied psycholinguistics and sociolinguistics and is appropriate as a text for advanced courses in these areas [Cognitive Plasticity in Neurologic Disorders](#) Joseph I. Tracy, Benjamin M. Hampstead, K. Sathian, 2015 This volume makes clear that the cognitive and behavioural symptoms of neurologic disorders and syndromes are dynamic and changing Each chapter describes the neuroplastic processes at work in a particular condition giving rise to these ongoing cognitive changes [Modern Medicine, Its Theory and Practice: Diseases of the nervous system, diseases of the locomotor system](#) Sir William Osler, Thomas McCrae, 1915 *The MIT Encyclopedia of Communication Disorders* Raymond D.
