QUESTION 1: SOURCE-BASED SECTION

THE COLD WAR IN EUROPE

- Before the end of World War II, the Western European countries and the Soviet Union began to grow suspicious of each other.
- The lack of trust and co-operation between the USA and USSR in particular, led to what is commonly referred to as the Cold War.

What was the Cold War?

- The Cold War was a series of mounting tensions between the two super-powers, each representing differing ideologies.
- On the one hand the USA symbolised a capitalist, democratic system and the USSR or Russia, stood for the principles of communism and a one-party system of government.
- The struggles between the two sides, the East vs the West, was an indirect conflict and usually at considerable risk to global peace.
- At times, the cold war became 'warm' and threatened to develop into full scale, 'hot' war - but one of the two powers always backed down at the last minute and thus the cold war continued for a lengthy period.

Origins of the Cold War

- After World War II, the Allied Powers had several conferences to discuss the future of Germany and the reconstruction of Europe.
- In February 1945, the Yalta Conference was held in the Soviet Union and the following was decided upon by the Big Three (Russia, USA, and Britain):
 - **That Germany be divided into four Zones of occupation - Russian, American, British and French.**
 - **Berlin, the capital of Germany, which was situated in the Russian Zone, be divided into four sections, one for each of the 4 major**

Select Notes Mary Abby Thaxter Peloubet, 1885 **Henry Adams: History of the United States Vol. 2 1809-1817 (LOA #32)** Henry Adams, 1986-07-04 This monumental work the second of two Library of America volumes culminated Henry Adams's lifelong fascination with the American past. Writing at the height of his powers, Adams understood the true subject as the consolidation of the American nation and character, and his treatment has never been surpassed. Covering the eight years spanning the presidency of James Madison, this volume chronicles Mr. Madison's War, the most bungled war in American history. The President and Congress delay while the United States is bullied and insulted by both England and France, then they plunge the country into the War of 1812 without providing the troops, money, or fleets to wage it. The incompetence of the commanders leads to a series of disasters, including the burning of the White House and Capitol while Madison and his cabinet flee from an invading army watching from the nearby hills of Maryland and Virginia. The war has its heroes too: William Henry Harrison at Tippecanoe and Andrew Jackson at New Orleans; Commodores Perry and Decatur and the officers and crew of the Constitution. As Adams tells it, though disgrace is averted by other means, the ineptitude of the British, the skill of the American artillerymen and privateers, and the diplomatic brilliance of Albert Gallatin and John Quincy Adams, who negotiated the peace treaty at Ghent, are highlighted. The history, full of reversals and paradoxes, ends with the largest irony of all: the United States, the apparent loser of the war, emerges as a great new world power destined to eclipse its European rivals.
