Confidence in Christ Mike Bradfield, 2018-05-24 Has science proven that the Bible is an archaic artifact and that Darwin revealed the origin of life Not so In fact recent developments in a wide range of sciences such as physics astronomy archaeology and human genome DNA studies continue to reveal that what the Bible has been saying all along and all alone is exactly correct As scientific discoveries have been exploding over the last several decades the evidence supporting the Bible and the Christian faith is exploding right in step with these new findings The closer science draws to the ultimate truth the closer it draws to the Bible and to revealing just how correct the Bible is concerning the origin of the universe life and the historicity of Jesus Christ In *Confidence in Christ* author and engineer Mike Bradfield starts at the beginning of time and proceeds chronologically pointing out exciting scientific evidence to support the Christian faith The easy to understand format addresses a number of questions How did the universe begin Does the big bang theory eliminate God Did God really create the entire universe in six literal days How did life begin How do dinosaurs fit in the biblical timescale Did we evolve from apes and what are human genome studies revealing Is humankind millions or thousands of years old Is there credible evidence outside the Bible for Jesus Is Jesus really the prophesied Christ The eye opening evidence in *Confidence in Christ* should cause you to pause rethink and reaffirm your views of the validity of the Christian faith

Disability and the Sociological Imagination Allison C. Carey, 2022-05-16 *Disability and the Sociological Imagination* provides an expertly developed and accessible overview of the relatively new and growing area of sociology of disability Written by one of the field's leading researchers it discusses the major theorists research methods and bodies of knowledge that represents sociology's key contributions to our understanding of disability Unlike other available texts it examines the ways in which major social structures contribute to the production and reproduction of disability and examines how race class gender and sexual orientation shape the disability experience

The Age of Capitalism, Consumer Culture, and the Collapse of Nature in the Anthropocene Jack Thornburg, 2024-10-02 This book examines how modern society arrived at such a destructive environmental and social stage suggesting that three great crises have converged climate change capitalism as a logic system and questions of consumer society and social identity

Art and Form Sam Rose, 2019-03-25 This important new study reevaluates British art writing and the rise of formalism in the visual arts from 1900 to 1939 Taking Roger Fry as his starting point Sam Rose rethinks how ideas about form influenced modernist culture and the movement's significance to art history today In the context of modernism formalist critics are often thought to be interested in art rather than life a stance exemplified in their support for abstract works that exclude the world outside But through careful attention to early twentieth century connoisseurship aesthetics art education design and art in colonial Nigeria and India Rose builds an expanded account of form based on its engagement with the social world Art and Form thus opens discussions on a range of urgent topics in art writing from its history and the constructions of high and low culture to the idea of global modernism

Rose demonstrates the true breadth of formalism and shows how it lends a new richness to thought about art and visual culture in the early to mid twentieth century Accessibly written and analytically sophisticated Art and Form opens exciting new paths of inquiry into the meaning and lasting importance of formalism and its ties to modernism It will be invaluable for scholars and enthusiasts of art history and visual culture

Medicine of the Imagination: Dwelling in Possibility Imelda Almqvist,2020-10-30 The human imagination gives rise to the most beautiful man made structures and creations on Earth architecture literature theatre music art humanitarian initiatives moon landings and space exploration mythology science they all require a large dose of imagination We all live surrounded by the results of the imagination of our peers and the creations of our ancestors Without imagination there is no compassion no moral compass and no progress But without imagination there is also no fear of death There are no premeditated murders or terrorist attacks these rely on the human ability to imagine to call up images and test drive possible scenarios in the human mind Once we get out the magnifying glass we discover that the imagination is a double edged sword All of us together humanity as a collective are creating very confused and mixed outcomes world peace remains elusive wars rage and children starve Addictions and pollution proliferate Medicine of the Imagination Dwelling in Possibility examines these issues and suggests that if we are to transcend religious wars homophobia and medical cures worse than the diseases we face then it that it is our moral duty to engage our imagination in service to other people
