Agile Project And Service Management Delivering It:

Agile project and service management Dorothy J. Tudor,2010-07-28 The failure effectively to sustain IT systems and react to change due to the huge investments that organisations make in these systems is likely to impact on an organisation's bottom line This means that an ad hoc approach to IT Service management is not an option It is vital to focus on business value good ROI speed to market and delivery of solutions in response to change Agile approaches mean an incremental method to change early delivery of business value and collaborative work towards change Understanding and employing ITIL PRINCE2 and DSDM together can provide the potential for a well run infrastructure which is responsive to change and will not halt progress This publication offers practical guidance on how to deliver an IT Service by employing ITIL PRINCE2 and DSDM together and provides an overview of all three approaches and describes the benefits of each It also describes the issues that arise from implementing ITIL the structure and content of PRINCE2 the breadth of DSDM and how they fit together where the common areas sit and where the specialities for each exist **IT Service Management Based on**
