Futureproof: A comprehensive framework for teaching digital citizenship in schools Gianfranco Polizzi, Lee Peachey, Sophie Murfin, Tom Harrison, 2022-06-07

Futureproof shows school leaders and teachers how they can educate for digital citizenship through the adoption of a new comprehensive and coherent framework. The book addresses a gap as there are currently no well known frameworks that provide a comprehensive approach to teaching digital citizenship education in UK schools. This is surprising given how digital technologies are part and parcel of most young people's lives today and will continue to be so in the future. Given that the technologies are constantly changing it might be said that those responsible for teaching digital citizenship are shooting in the dark whilst trying to hit a moving target. The book brings clarity by explaining the theory and research behind the Futureproof framework and through its focus on how it can be implemented in primary and secondary schools. The book includes details of the digital citizenship framework an overview of learning and teaching outcomes and examples from practice throughout.
