Interview Insights

Published Jul 17, 2022

As a SAP Solution Architect you are responsible for designing, developing, and deploying SAP solutions that meet the specific needs of your clients. This includes creating detailed designs and blueprints for the system, as well as mapping the client's business processes to the SAP solution.

In order to be successful in this role, you need to have a deep understanding of SAP functionality as well as the business processes of your clients. You also need to be able to communicate complex concepts to non-technical stakeholders.

If you're interviewing for a SAP Solution Architect role, you can expect to be asked questions about your experience with SAP, your understanding of business processes, and your ability to communicate complex concepts. To help you prepare, we've compiled a list of sample questions and answers that you can use to develop your own responses.

COMMON SAP SOLUTION ARCHITECT INTERVIEW QUESTIONS

- Are you familiar with the SAP product line?
- What are some of the most important skills for a Solution Architect to have?
- How do you determine the best way to implement a new system?

EXPAND +

Are you familiar with the SAP product line?

The interviewer may ask this question to assess your knowledge of the SAP product line and how it relates to their organization. Use your answer to highlight any experience you have with SAP products, including which ones you've used in the past and what your overall opinion is on them.

Example: *"I am familiar with the SAP product line, having worked with several of its solutions in my previous role as a solution architect. I found that SAP's ERP software was very useful for managing company-wide operations, but I also found that some of its other products were not as effective. For example, I found that while SAP CRM can be helpful for customer relationship management, it doesn't offer much functionality when compared to more robust tools like Salesforce."*

105 SAP Basis (System Administration) Interview Questions with Answers and Explanations N. Thind,Kristine K,2012-06-21 What does it take to gain entry into the fascinating lucrative world of SAP System Administration A successful Interview In fact for contracting jobs all it takes is a half an hour telephone interview before you get your first break Though the interview procedure is more drawn out for permanent job there is normally only ever One technical interview A successful interview can provide you with that break which will be the first step to a career in the SAP World So what are the interviewers looking for For an associate level position less than 2 year s System Admin project experience here is what the interviewers typically look for Decent

overall knowledge of SAP System Administration Deep knowledge in at least one or two area e g BW Oracle etc Ability to work in a team environment As you are a junior you will probably be working as part of a larger team Ability to find relevant technical information With System Administration being so wide no single consultant is reasonably expected to know everything However you should have the skills to find out more wherever required The kind of questions asked at the associate level interview are less to do with tables and fields and more to do with your approach to a project issue or a support Issue This is something that can only come with experience or if you receive some coaching from experienced consultants So how would you like some insider knowledge of what kind of questions are asked in an actual Basis System Administration interview and what kind of response gets you the green light By reading this book Why should you buy this book Current Questions that are being asked in Interviews TODAY Every single question is based on project knowledge and personal experience Divided into Basis functionality areas for easy reading Covers the most important concepts configuration settings Focus on business scenarios Some unique features of this book The Question are ACTUAL questions asked in some of the regular interviews that the likes of Accenture IBM do How do we know Because we do some of these interviews The questions available on google are almost never asked in a Real interview This book contains Questions that are NOT available anywhere else The authors have a combined experience of over 20 years in SAP
