### **Introduction:-**

Developing good business communication skills is as much about the ability to develop good content as it is about good form. Business documents must maintain certain standards and should be, at most, recognizable internationally.

Documents can be classified into two types: internal and external. Internal documents circulate within the organization and may include memos, reports and proposals.

External documents circulate outside of the organization. Examples include: letters, tenders, proposals and reports. The external environment may include clients, customers, suppliers, stockholders, government, media and the general public.
