Padode,2024 A COMPREHENSIVE OVERVIEW OF THE INFRASTRUCTURE SECTOR IN INDIA OVER THE LAST TWO
DECADES On 24 October 1998 Prime Minister Atal Bihari Vajpayee announced the Golden Quadrilateral project auguring a
period of high growth and development in Indian infrastructure However in the two decades since India has seen scams and
failures in the sector along with long slumps when most economic activity ceased Nothing is so fundamental to the health of
a nation as its infrastructure the foundation of all economic activity Yet all is not bleak Over the last decade there has been
much progress Our national highways have grown from 91 287 km to 146 145 km we now have 148 airports instead of 74 our

solar generation capacity has risen from 2.63 GW to 66.78 GW from around 350 startups we now have over 90,000 of them the Indian stock market capitalisation increased from about 1.6 trillion to roughly 3.9 trillion Industry expert and thought leader Pratap Padode reviews the last twenty five years of the sector analysing both hits and misses He presents the narrative behind the numbers the policies challenges and successes that shaped India's economic landscape and looks to the future with informed and insightful policy recommendations Whether you're a policy enthusiast a student of urban development or simply curious about India's growth story Tarmac to Towers is a compelling chronicle of how strategic decisions and visionary leadership can pave the way for a nation's advancement

Economic and Environmental Regulation of International Aviation Steven Truxal, 2016-12-01 The core structure of the regulatory regime for international civil aviation the Chicago System is international The features of the Chicago System were designed in an era when the world's airlines were State owned and the most pressing international concerns were for navigation and safety regulation Economic liberalization and intense globalization since the Second World War have impacted on the industry today it is global This book observes the developing governance of global aviation taking into account the concepts of sovereignty jurisdiction and territoriality and the proliferation of actors and participants as partners in a global public policy network to posit that an upgraded system of global governance for civil aviation helps to explain the emerging complex landscape for global governance of civil aviation As evidence of the emerging complex matrix of governance of global aviation this book identifies and reviews a selection of contemporary transnational economic and environmental challenges facing the globalized aviation sector e.g. fair competition safeguards consumer protection noise pollution and greenhouse gas emissions and the respective legal and policy actions taken at national level United Arab Emirates Qatar and People's Republic of China regional level the European Union and international level UN Framework Convention on Climate Change and International Civil Aviation Organization The book concludes that economic and environmental regulation of international aviation designed for an international world of yesterday evolves into global governance of aviation which is more suited for today's global world This book will be of particular interest to scholars and practitioners of aviation law competition law and environmental law as well as in the areas of transnational law global governance and international relations
