University Bulletin** ,1928 *Course Catalog* Northeastern University (Boston, Mass.),1928 **Introduction to Business
Organization** Samuel Edwin Sparling,2015-06-02 Excerpt from Introduction to Business Organization This volume is an
outgrowth of a course of lectures on Business Organization and Management delivered at the University of Wisconsin in
connection with the courses in Commerce There is no single volume covering modern business activity from the point of view
of organization It is however true that occasional articles in trade magazines and even treatises covering special phases of
business have recently come from the press The growth of this literature indicates a larger interest in the systematic study of
business institutions and operations The business man is fast realizing the practical helpfulness of these studies The best
firms are establishing trade and technical libraries and schools of instruction not only for the training of their employees but
also for constant consultation in connection with office and factory problems Greater attention is given to day to business
efficiency and several reasons have made this necessary among the more important of which are business waste and
misdirection Every business man although he may deny that there is a science of business will admit that there is a proper
way of organizing his business About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic
