4 Point Speaking for Academic Purposes Robyn Brinks Lockwood,Keith S. Folse,2017-03-17 The 4 Point series is designed for English language learners whose primary goal is to succeed in an academic setting Academic English learners need skills based books that focus on reading listening and speaking as well as the two primary language bases of vocabulary and grammar The ultimate goal is to help your students improve these skills and earn a 4 0 GPA The Introduction to English for Academic Purposes EAP level is designed for students in academic programs who need a more general introduction to authentic academic content The discrete skills volumes are designed for programs and courses that want to more intensively focus on key strategies and authentic academic content in one skill area Each 4 Point volume covers

academic skills while providing reinforcement and systematic recycling of key vocabulary issues and further exposure to grammar issues. These volumes focus very heavily on vocabulary because language learners know that they are way behind their native speaker counterparts when it comes to vocabulary. Each book highlights key vocabulary items including individual words, compound words, phrasal verbs, short phrases, idioms, metaphors, collocations, and longer set lexical phrases.

Speaking for Academic Purposes is an introductory textbook containing English for Academic Purposes content. Each unit includes activities to strengthen a range of speaking skills, notably understanding classroom discourse using academic language functions, recognizing signal words and phrases, and synthesizing information. These activities are presented within the context of one field of academic study: Architecture, Marketing, Earth Science, U.S. History, Chemistry, and Fine Arts, per unit. Unique to this speaking text are six videos showing common student interactions. Access to the videos is free. Each unit includes three academic speaking strategies, including one specific to making presentations and tasks that involve participating in group discussions, interacting with native speakers, and making a presentation. The goal is to provide students with a variety of strategies and tools to master academic situations in which they need to participate.

Teaching English to Second Language Learners in Academic Contexts Jonathan M. Newton, Dana R. Ferris, Christine C.M. Goh, William Grabe, Fredricka L. Stoller, Larry Vandergrift, 2018-02-07. Teaching English to Second Language Learners in Academic Contexts: Reading, Writing, Listening, and Speaking provides the fundamental knowledge that ESL and EFL teachers need to teach the four language skills. This foundational text, written by internationally renowned experts in the field, explains why skills-based teaching is at the heart of effective instruction in English for academic purposes (EAP) contexts. Each of the four main sections of the book helps readers understand how each skill—reading, writing, listening, and speaking—works and explains what research has to say about successful skill performance. Pedagogically focused chapters apply this information to principles for EAP curriculum design and to instructional activities and tasks adaptable in a wide range of language learning contexts. Options for assessment and the role of digital technologies are considered for each skill, and essential information on integrated skill instruction is provided. Moving from theory to practice, this teacher-friendly text is an essential resource for courses in TESOL programs, for in-service teacher training seminars, and for practicing EAP teachers who want to upgrade their teaching abilities and knowledge bases.
