This book offers the latest research and new perspectives on Interactive Collaborative Learning and Engineering Pedagogy. We are currently witnessing a significant transformation in education and in order to face today's real world challenges higher education has to find innovative ways to quickly respond to these new needs. Addressing these aspects was the chief aim of the 21st International Conference on Interactive Collaborative Learning ICL2018 which was held on Kos Island Greece from September 25 to 28 2018. Since being founded in 1998 the conference has been devoted to new approaches in learning with a special focus on collaborative learning. Today the ICL conferences offer a forum for exchanging information on relevant trends and research results as well as sharing practical experiences in learning and engineering pedagogy. This book includes papers in the fields of New Learning Models and Applications, Pilot Projects, Applications, Project based Learning, Real world Experiences, Remote and Virtual Laboratories, Research in Engineering Pedagogy, Technical Teacher Training. It will benefit a broad readership including policymakers, educators, researchers in pedagogy and learning theory, school teachers, the learning industry, further education, lecturers, etc.
