Alexa Robertson, 2018-07-11 Screening Protest brings together a range of scholarly perspectives on the study of protest mediations on television and in film Arguing that the screen is a fruitful if overlooked analytical focus the book explores how visual narratives of protest wander across borders territorial temporal and generic Chapters compare coverage of major protests in recent history by global news channels like Al Jazeera English BBC World CNN International and RT They consider how geopolitical agendas newsroom culture and the ubiquity of eyewitness footage shape the narration of events such as the Umbrella Revolution in Hong Kong anti austerity protests in Greece pro EU mobilizations in the Ukraine and clashes in Ferguson A focus on narrative allows authors to compare such news stories with popular cultural depictions of the protester in films and television series such as The Hunger Games Robin Hood and Suffragette Although focussed on the screen the scope of the book is broad given its exploration of images distributed worldwide Written with both scholars and students in mind Screening Protest will interest researchers in political science sociology media and film studies as well as the general reader interested in current affairs *Scenography and Art History* Astrid Von Rosen, Viveka

Kjellmer, 2021-05-20 Scenography and Art History reimagines scenography as a critical concept for art history and is the first book to demonstrate the importance and usefulness of this concept for art historians and scholars in related fields It provides a vital evaluation of the contemporary importance of scenography as a critical tool for art historians and scholars from related branches of study addressing phenomena such as witchy designs Early Modern festival books live rock performances digital fashion photography and outdoor dance interventions With its nuanced and detailed case studies this book is an innovative contribution to ongoing debates within art history and visual studies concerning multisensory events It extends the existing literature by demonstrating the importance of a reimagined scenography concept for comprehending historical and contemporary art histories and visual cultures more broadly The book contends that scenography is no longer restricted to the traditional space of the theatre but has become an important concept for approaching art historical and contemporary

objects and events It explores scenography not solely as a critical approach and theoretical concept but also as an important practice linked with unrecognized labour and broader political social and gendered issues in a great variety of contexts such as festive culture sacred settings fashion film or performing arts Designed as a key resource for students teachers and researchers in art history visual studies and related subjects the book through its cross disciplinary frame does consider implicitly and explicitly the roles of both scenography and art in society
