Shockey, 2012-12-14 Second language phonology is approached in this book from the perspective of data based studies into the English sound system as used by native and non native speakers of the language The book offers a unique combination of psycholinguistic sociolinguistic and pedagogical approaches with individual contributions investigating the effect of selected conditioning factors on the pronunciation of English With all the richness of approaches it is a strong phonetic background that unifies individual contributions to the volume Thus the book contains a large body of original primary research which will be of interest to experienced scientist practitioners and lecturers as well as graduate students planning to embark on empirical methods of investigating the nature of the sound system **The Use of Pop Songs in the EFL Classroom** Ornerová Lenka, 2011-03-09 Inhaltsangabe Introduction I have chosen the topic of using pop songs in the EFL classroom because I strongly believe that working with pop songs is a highly motivational device When I was a student at a lower and upper secondary school listening to songs in English classes was my favourite activity I have always wanted to be able to understand the lyrics of songs I listened to Later I realized that I have learned a lot from listening to pop songs and analyzing their lyrics Therefore in my diploma project I would like to prove that using pop songs is a highly motivational device in teaching English with instructional value and that students enjoy working with pop songs The theoretical part of this diploma project is based on relevant sources of background literature In the first two chapters the use of songs is described with regard to motivation and the Multiple Intelligences Theory The third and fourth chapter deal with the reasons for using songs and their classification In the last two chapters of the theoretical part pedagogical principles of using pop songs in class as well as the pros and cons of teaching through pop songs are presented The practical part is based on the findings of three

surveys I have conducted in the field of using songs in the EFL classroom In the first part of the research I present an analysis of questionnaires which I distributed among English teachers at lower and upper secondary schools and grammar schools In the second part of the research I describe students attitudes to pop song based lessons which I taught during my teaching practice at grammar schools In the third part of the research I analyze the types of songs presented in commonly used textbooks at lower and upper secondary schools In addition I present a self developed teaching material containing a list of pop songs suitable for the EFL classroom In the last part of the practical part I answer the research questions and provide some implications for my own teaching

Variability and Stability in Foreign and Second Language Learning Contexts Liliana Piasecka, Ewa Piechurska-Kuciel, 2011-12-08 This book contains a wide spectrum of topics organized within a relatively fixed framework of Applied Linguistics theory and practice revolving around the concepts of stability and variability that capture the dynamic nature of the phenomena characterizing language learning and teaching. The primary strength of individual chapters lies in the fact that the vast majority report original empirical studies carried out in diverse second foreign language learning contexts investigating interesting issues across various nationalities, ages, educational and professional groups of language learners and teachers. The issues under scrutiny entail the classic recurrent topics related to language learning and teaching such as communicative competence, input, orality and literacy, learner characteristics and strategies, and teacher development to mention just a few. In addition, recent arrivals to borrow a marketing metaphor are also present as the authors consider learning and teaching implications resulting from the status of English as a language of international communication and discuss related concepts of intercultural competence along with language learners' identity and creativity. The multilingual and multicultural contributors to the present volume are researchers, foreign and second language learners and teachers themselves who offer the reader a range of methodological designs that have been successfully used in Applied Linguistics research. The framework of stability and variability suggests that changes leading to progress and development derive from stable foundations that account for the sense of continuity and belonging in applied linguists' communities of practice.

New English File Intermediate Clive Oxenden, Christina Latham-Koenig, 2007 4 Student's Book units Practical English lessons with video Consolidation and review pages after each unit Communication section and Listening scripts Grammar Bank Vocabulary Bank and Sound Bank 4 Workbook units Answer key *Peer Interaction and Second Language Learning* Masatoshi Sato, Susan Ballinger, 2016-03-10 This volume represents the first collection of empirical studies focusing on peer interaction for L2 learning. These studies aim to unveil the impact of mediating variables such as task type, mode of interaction and social relationships on learners' interactional behaviors and language development in this unique and pedagogically powerful learning context. To examine these issues, contributors employed quantitative, qualitative and mixed methods designs as well as cognitive, social and sociocognitive theoretical frameworks. The majority of the studies are classroom based and were conducted in a rich array of settings covering five continents and encompassing a wide range of learner L1s and target languages. These settings include second and foreign language classrooms from primary to university level content based programs, online contexts and after school programs. To span the divide between research and practice, each study includes a section suggesting pedagogical implications. **English File** Oxford University Press, 2014 *English File* Christina Latham-Koenig, Clive Oxenden, Jane Hudson, Jerry Lambert, 2012 **English File: Intermediate.
