epiphanies in their phenomenal presentation Kellenberger also explores issues that arise for epiphanies such as the matter of their veridicality whether they are truly of or from the divine and the question of whether all epiphanies are of the same religious reality

*The Legacy of Wilfred Cantwell Smith* Ellen Bradshaw Aitken, Arvind Sharma, 2017-03-15 This is the first work to address the legacy of Wilfred Cantwell Smith 1916-2000 whose intellectual and institutional contributions helped shape the field of religious studies in the latter half of the twentieth century As a young scholar Smith taught Indian and Islamic history in Lahore for several years and witnessed the partition of India Upon his return to North America he obtained his PhD at Princeton University before embarking upon a long and distinguished career He founded the Institute of Islamic Studies at McGill University and served as director of the Center for the Study of World Religions at Harvard University Smith emphasized the place of the scholarly study of Islam in the Western academy long before Islam occupied its current position at the center of global politics challenged the notion of monolithic world religions and argued for the importance of dialogical processes and a personalist approach to the study of religion Contributors to this volume many of whom were Smith's students provide a wide ranging exploration of his influence and legacy

Religious Revelation James Kellenberger, 2020-10-19 This book addresses several dimensions of religious revelation These include its occurrence in various religious traditions its different forms its elaborations how it has been understood by Western theologians and

differing views of revelation's ontological status. It has been remarked that revelation is most at home in theistic traditions and this book gives each of the three Abrahamic traditions—Judaism, Christianity, and Islam—its own chapter. Revelation, however, is not limited to theistic traditions; forms found in Buddhism and nondevotional, nontheistic Hinduism are also explored. In the book's final chapter, a particularly significant form of religious revelation is identified and examined: pervasive revelation. The theistic manifestation of this form of revelation, pervasive in the sense that it may occur in all the domains or dimensions of human existence, is shown to be richly represented in the Psalms, where God's presence may be found in the heavens, in the growing of grass, and in one's daily going out and coming in. Pervasive revelation of religious reality is also shown to be present in the Buddhist tradition.

**Fabricating Religion** Russell T. McCutcheon, 2018-09-24. The revised essays collected here, four of which are published for the first time, continue a longstanding argument made by McCutcheon and others that the study of religion would benefit from self-conscious scrutiny of its tools, the interests that may drive them, and the effects that might follow their use. The chapters examine a variety of contemporary sites in the modern field where this thesis can be argued, whether involving the anachronistic use of the category religion when studying the ancient world to current interest in so-called critical religion or critical realist approaches. Moreover, contrary to some past characterizations of such critiques, a constructive way forward for the field is once again recommended and, at several sites exemplified in detail, redescribing not only religion as something ordinary but also our tendency to create the impression of exceptional and thus set apart things, places, and people. Aimed at scholars and students alike, the book is an invitation to examine our own scholarly practices and thereby take a more active role in shaping the field in which we carry out our work as scholars of this thing we call religion.

**Religion in 50 More Words** Aaron W. Hughes, Russell T. McCutcheon, 2021-11-29. Religion in 50 More Words: A Redescriptive Vocabulary provides a succinct historical, social, and political examination of some of the key words used in the modern study of religion. Differing from the first volume's more theoretical focus, this volume analyzes more common, first-order descriptive terms that are used throughout the field, inviting readers to theorize their traditional vocabulary. Topics covered include Atheism, Theism, Conversion, Cult, Evil, Fundamentalism, Idol, Magic, Pilgrimage, Ritual, Sacrifice. Religion in 50 More Words submits such terms to a critical interrogation and subsequent redescription. This paves the way for a collective and more critical reframing of the field. The volume, along with Religion in 50 Words, provides an indispensable resource for students and academics working in the field of religious studies and cognate disciplines.

**Problematizing Religious Freedom** Arvind Sharma, 2011-08-08. The concept of religious freedom is the favoured modern human rights concept with which the modern world hopes to tackle the phenomenon of religious pluralism as our modern existence in an electronically shrinking globe comes to be increasingly characterised by this phenomenon. To begin with, the concept of religious freedom as embodied in Article 18 of the Universal Declaration of Human Rights seems self-evident in nature. It is the claim of this book, however, that although emblematic on the one hand, the concept is also

problematic on the other and the implications of the concept of religious freedom are far from self evident despite the ready acceptance the term receives as embodying a worthwhile goal This book therefore problematizes the concept along legal constitutional ethical and theological lines and especially from the perspective of religious studies so that religious freedom in the world could be enlarged in a way which promotes human flourishing

**World Religions** Thomas A. Robinson, Hillary P. Rodrigues, 2022-11-15 This masterful survey of world religions presents a clear and concise portrait of the history beliefs and practices of Eastern and Western religions The authors both respected scholars of world religions have over 50 years of combined teaching experience Their book is accessibly written for introductory classes can be easily adapted for one or two semester courses and employs a neutral approach for broad classroom use The third edition has been revised throughout with updated material on the history and contemporary configurations of each tradition and new sections addressing gender sexuality and the environment It also includes effective sidebars photographs timelines charts calendars glossaries and a spelling guide Online resources through Baker Academic s Textbook eSources include Powerpoint Keynote slides new maps and videos and a large question bank of multiple choice test questions available to professors upon request

honest assessment of how religion can either destroy us or preserve us and a thorough exploration of what steps might be necessary for all religions to join together as a force for good Because of the attack on the World Trade Center on September 11 2001 the very concept of religion underwent a paradigm shift Instead of standing for virtue and piety peace and harmony the word religion also came to be inextricably associated with evil aggression and terror People around the world began to question whether the religious and secular dimensions of modern life can be reconciled whether the different religions of the world can ever coexist in harmony Indeed the very future of religion itself has sometimes seemed to be uncertain or at least suspect The volumes are 1 Religion War and Peace 2 Religion and Human Rights 3 The Interfaith Dimension 4 Spirituality
