pursuit of warhead miniaturization Based on a number of new Chinese language sources that have not previously been
analyzed this book reveals that China has the ability to produce smaller lighter warheads than some have suggested as well
as more options for missiles that could carry a larger number of warheads The book also provides a new framework for
understanding China's efforts to modernize its nuclear arsenal and offers clues about the future of China's nuclear program
As the international community watches China's rapid nuclear expansion with concern and in particular as the United States
considers whether it will be confronting two peer nuclear armed adversaries Russia and China in the future this book is a
