World War II

1939–1945

Why It Matters

World War II, the most destructive war in history, resulted in the deaths of more than 40 million people. More than half of the deaths were civilians, including about six million Jews and many others that were killed in the Holocaust. At the end of the war, the United States emerged as the strongest nation in the world and the possessor of a powerful weapon—the atomic bomb.

The Impact Today

World War II marked the beginning of the nation's role as a superpower. The war also transformed the American economy into an enormously productive and enduringly prosperous economy.
