The Oil Weekly ,1929 *Growth from Chaos* Michael Pettus,2003-12-30 We live in a chaotic world Some of the chaos results from poor decision making e g Enron Arthur Andersen WorldCom Yet other aspects of chaos war terrorist attacks etc are beyond a firm s control This book demonstrates that firm growth is more dependent on how a firm develops its resource base over time Examining actual firm growth in several industries with a focus on trucking the airline industry and the North American railroad industry Pettus shows that a specific resource sequencing leads to higher firm growth than other sequencing patterns This sequencing pattern is similar across transportation industries and the pattern may be applicable to other industries Decisions that firms make with respect to how resources are developed must balance the need for growth in the current time period with the need for growth over the long term Firms can build sustainable growth by developing resources in a specific sequence in essence firms have control over their growth even when confronted with ever changing environmental conditions Service Contracts Maurits Barendrecht,J. M. Barendrecht,2007 The Study Group on a European Civil Code has taken upon itself the task of drafting common European principles for the most important aspects of the law of obligations and for certain parts of the law of property in movables which are especially relevant for the functioning of the common market Like the Commission on European Contract Law s Principles of European Contract Law the results of the research conducted by the Study Group on a European Civil Code seek to advance the process of Europeanisation of private law Among other topics the series tackles sales and service contracts distribution contracts and security rights renting contracts and loan agreements negotiorum gestio delicts and unjustified enrichment law transfer of property and trust law The principles furnish each of the national jurisdictions a grid reference They can be agreed upon by the parties within the framework of the rules of private international law They may provide a stimulus to both the national and European legislator for moulding private law Beyond this they aim to further discussion about the creation of a European Civil Code or a Common Frame of Reference in the area of patrimonial law by submitting a concrete model The Principles of European Law are published in co operation with St mpfli Bern Switzerland For other co operation partners and for more information see [www sellier de](http://www.sellier.de) The Oil and Gas Journal ,1929 FCC Record United States.
