understand the changing landscape of legal education in the era of globalization the contributions find that law schools can and must adopt educational strategies that at least present students with different understandings of what studying and practicing law is meant to be about They find that law schools need to offer their students choices a vision of practice that is not driven entirely by the demands of the marketplace or the needs of major international law firms Bridging the gap between theory and practice this book makes a significant contribution to the impact of globalization on legal education and how students and law schools need to adapt for the future It will be of great interest to academics and students of comparative legal studies and legal education as well as policy makers and practitioners

### **Pluralizing Plagiarism**

Rebecca Moore Howard, Amy E. Robillard, 2008 The recent cases of Doris Kearns Goodwin and Kaavya Viswanathan demonstrate that plagiarism is a hot button issue It is also pervasive occurring in universities four year colleges community colleges and secondary schools In graduate programs international classrooms and multicultural classrooms In writing centers and writing across the curriculum programs In scholarly publications and the popular media How do we understand a literacy practice that is simultaneously so abhorred and so present in the lives of both beginning and advanced writers students and Pulitzer Prize winners Pluralizing Plagiarism offers multiple answers to this question answers that insist on taking into account the rhetorical situations in which plagiarism occurs While most scholarly publications on plagiarism mirror mass media s attempts to reduce the issue to simple black and white statements the contributors to Pluralizing Plagiarism recognize that it takes place not in universalized realms of good and bad but in specific contexts in which students cultural backgrounds often play a role Teachers concerned about plagiarism can best address the issue in the classroom especially the first year composition classroom as part of writing pedagogy and not just as a matter for punishment and prohibition Pluralizing Plagiarism opens a productive dialogue about what is at stake in plagiarism one that approaches the topic with students rather than for or about them Leading the way toward curricular reform its contributors take student work seriously and therefore encourage teachers to take student writing and learning seriously

### **Teaching for Quality**

**Learning at University** Biggs, John Burville Biggs, Catherine So-kum Tang, 2007 This book is a sophisticated and insightful conceptualization of outcomes based learning developed from the concept of constructive alignment The first author has already made a significant contribution to the scholarship and practice of teaching and learning in universities Together with the second author there is now added richness through the practical implementation and practices The ideas in this book are all tried and shown to contribute to more successful learning experience and outcome for students Denise Chalmers Carrick Institute of Education Australia Teaching for Quality Learning at University focuses on implementing a constructively aligned outcomes based model at both classroom and institutional level The theory which is now used worldwide as a framework for good teaching and assessment is shown to Assist university teachers who wish to improve the quality of their own teaching their students learning and their assessment of learning outcomes Aid staff developers in providing support for teachers

Provide a framework for administrators interested in quality assurance and enhancement of teaching across the whole university. The book shows how to approach addressing several important issues: designing high level outcomes, the learning activities most likely to achieve them in small and large classes, and appropriate assessment and grading procedures.
