## World Class In Safety:

Talking Safety Tim Marsh,2013 Talking Safety summarises in a short user friendly read the key element of safety leadership the management and supervisor walk and talk Safety standards are set by a combination of three things first the basic systems risk assessments procedures training inductions and maintenance second the amount of objective learning about the inevitable weaknesses in these systems achieved from a Just Culture perspective and third the quality of transformational safety leadership which means coaching not telling praising not criticising leading by example and maximising front line ownership and involvement A good walk and talk is the only methodology that covers all of these issues and really should be embedded as part of the way we do things around here It is the centrepiece of any world class safety culture Although covering all the key safety research findings by academics including Sidney Dekker Andrew Hopkins and James Reason as well as latest influencing skills techniques from recent advances such as nudge theory it is written in an accessible style using everyday examples and case studies You can use any of the five simple steps it outlines to make a difference day to day Employ its advice fully and it will help you embed safety thinking transform your safety culture and make safety part of the way we do things around here
