Phillips, Gina Paone, Cyndi Huff Gaudet, 2019-07-05 Written by two of the world's most well-known ROI (Return on Investment) gurus, this guide is indispensable for anyone involved in showing the value of money for projects and programs in governments, non-governmental organizations, nonprofits, and businesses. These range from human capital programs to marketing initiatives, technology implementations, systems integrations, quality and lean processes, public health initiatives, procurement procedures, public relations events, risk management policies, economic development programs, corporate social responsibility projects, public policy programs, branding activities, innovation programs, customer satisfaction projects, and everything in between. In a step-by-step process, the book shows how to measure the success of projects and programs, including measuring impact and ROI (Return on Investment). This book also shows how to forecast the value of the project in advance and how to collect data during and after project implementation. It addresses improvements throughout the process so that the project delivers optimum value. In addition to businesses, this book is appropriate for governments, NGOs, nonprofits, universities, and healthcare organizations. As a reference for those who are seeking ways to assign value to what they have measured, the book will clarify and resolve much of the mystery surrounding the conversion of data to monetary values.
