Making Myself at Home in a Nursing Home Sandra J. Gaffney, 2012-10-15 Sandra Gaffney entered her first nursing home for long term care at the unusually young age of fifty Fourteen years earlier she had been diagnosed with amyotrophic lateral sclerosis ALS also known as Lou Gehrig's disease Over the next sixteen years Gaffney lived in nursing homes in Florida Virginia and Minnesota as the ways she could be close to family changed She describes her situation in these words As a nursing home resident I require total or maximum care I have limited use of my hands and arms With special splints I am able to turn the pages of my books use the telephone and TV VCR FM radio remote control When my cup is positioned properly I can drink independently I am able to walk with a platform walker and the help of two nursing assistants My walking is not functional it is only for exercise After I moved into my third nursing home I learned to operate a power wheelchair by using an adaptive switch between my knees All other areas of physical care have to be done for me My speech is impaired If people listen carefully they can understand what I am saying I am able to eat regular food and breathe on my own Gaffney became an acute observer and strategist about how to live in a nursing home Her first person account dictated to family members and assistants covers making the decision to enter a nursing home choosing the right one and understanding its culture She talks about how to furnish your room and about all the issues that arise in a resident's typical day She has much to say about communication with staff and family about how to help others help me Gaffney's daughters Amy and Bridget and her friend Ellen Potter provide additional perspectives on the caregiving experience
