Agroforestry Solutions for Climate Change and Environmental Restoration Sushil Kumar, Badre Alam, Sukumar Taria, Priyanka Singh, Ashok Yadav, A. Arunachalam, 2024-09-01 This book discusses the possibilities, reach, challenges and limitations of agroforestry in new contexts where the security of food, nutrition and the environment are equally vital. The focus of each chapter in the book is on the potential for agroforestry to address pressing issues such as sustainability, food, fodder, nutrition and environmental security, as well as to offer support, regulate and to provide cultural services to society. Some of the devoted chapters in the book also go into detail on the scope and restrictions of agroforestry owing to existing regional and climatic barriers/problems, in addition to an in-depth discussion of prospects of agroforestry in changed climate scenarios to cater to current and future needs. The major focus of this book is to aggregate up-to-date and recent agroforestry research studies/achievements to make them accessible to all the stakeholders for their use and to disseminate how agroforestry systems are playing a crucial role in tackling many difficulties during the changing climate and environmental crisis. The stakeholders find this book helpful in learning agroforestry and its importance in situations with changing climatic conditions across the globe. Additionally, it may also be helpful for policy makers for formulating policies pertaining to the adaptation and mitigation of climate change, the conservation of natural resources and food and nutritional security, including sustainable development through agroforestry.
