

## Situational Spring Framework interview questions with answers for hiring top developers

- How would you handle a situation where a Spring application starts to slow down due to an increase in traffic?
- If you needed to integrate a third-party API into a Spring application, how would you approach this task?
- How would you manage application properties for different environments (e.g., development, testing, production) in a Spring Boot application?
- How would you approach debugging a Spring application that is throwing a runtime exception but the logs are not providing enough information?
- Describe a situation where you had to implement a new feature in a legacy Spring application. How did you ensure compatibility and minimal disruption?
