INTRODUCTION

As stated by an African proverb, it takes a village in order to raise a kid. That statement only proves a certain common belief that people really thrive in an environment where they are comfortable, and where they feel mentally, spiritually, emotionally, and socially supported. Therefore, it only becomes natural to consider that one of the most vital tasks as an individual human being is to provide support and care for others. While giving this support, it is very important that we also do so while making sure that we keep their best interest in mind. This means that we need to show grace wherever and whenever possible, and at the same time, introducing personal biases as needed.
