**Why ERP? A Primer on SAP Implementation** F. Robert Jacobs, D. Clay Whybark, 2000-01-06 Why ERP is not a traditional textbook designed for a specified course it is patterned after the wildly successful short novel The Goal by Eli Goldratt The Goal is currently required reading in many undergraduate MBA and executive courses Like The Goal Why ERP is a short novel about a manager in a furniture manufacturing business who is charged with learning about and implementing a new ERP system particularly SAP R 3 The story tells of his experience learning about it his considering other installations as examples and then his deciding the key issues and how to proceed Incorporated into the story is a concise introduction to the basic concepts and architecture of ERP systems including actual screen shots of R 3 modules Though this is NOT a programming book it is a quick read overview and it can be assigned even for systems majors as a background reading to lay out the managerial issues and build a basic understanding of the concepts prior to doing actual technical programming or hands on R 3 projects Through the eyes of the hero in the novel the reader is

presented with all the related implementation and business issues Intended to provide a non technical non programming introduction this book can stand alone as a quick read or self study introduction for any manager or business student The text is also great for schools who do NOT have any SAP Oracle PeopleSoft or other ERP system on campus and who have no access to online or hands on samples or examples This book can provide the needed literacy and awareness of what ERP is and why it matters *NetWare Training Guide* Karanjit Siyan,1994 Tutorials and self study make this guide the essential deskmate for future NetWare engineers studying for Novell s certification course on the NetWare administration which is becoming required training for all future LAN administrators **Sams Teach Yourself SAP R/3 in 24 Hours** Danielle Larocca,1999 A reference for end users accounting clerks sales reps shipping and receiving clerks human resources employees etc who merely use SAP as a tool to get their job done this text features coverage is aimed at immediate material so that end users can get back to work on their job functions with the SAP software
