Department of the Army, 1952 Externally Heated Valve Engine Zbyszko Kazimierski, Jerzy Wojewoda, 2015-12-22 This book reports on a novel approach for generating mechanical energy from different external heat sources using the body of a typical piston engine with valves. By presenting simple yet effective numerical models, the authors show how this new approach, which combines existing internal combustion technology with a lubrication system, is able to offer an economic solution to the problem of mechanical energy generation in piston engines. Their results also show that a stable heat generation process can be guaranteed outside of the engine. The book offers a detailed report on physical and numerical models of 4 stroke and 2 stroke versions of the EHVE together with different models of heat exchange valves and results of their simulations. It also delivers the test results of an engine prototype run in laboratory conditions. By presenting a novel theoretical framework and providing readers with extensive knowledge of both the advantages and challenges of the method, this book is expected to inspire academic researchers, advanced PhD students and professionals in their search for more effective solutions to the problem of renewable energy generation. *Vehicular Engine Design* Kevin Hoag, Brian Dondlinger, 2015-08-04 This book provides an introduction to the design and mechanical development of reciprocating piston engines for vehicular applications. Critical layout dimensions and design trade offs are then presented for pistons, crankshafts, engine blocks, camshafts, valves and manifolds. Coverage continues with material strength and casting process selection for the cylinder block and cylinder heads. Each major engine component and sub system is then taken up in turn from lubrication system to cooling system to intake and exhaust systems to NVH. For this second edition, latest findings and design practices are included with the addition of over sixty new pictures and many new equations. *How to Build Chevy Small-Block Circle-Track Racing Engines* Jeff Huneycutt, 2007-10-01 The photos in this edition are black and white.
