Artificial Intelligence and Large Language Models Abbas Moallem, Helmut Degen, Stavroula Ntoa, 2026-03-11 With the latest developments in
generative artificial intelligence AI and large language model LLM applications like ChatGPT and Gemini millions of people
have started using them in their personal and professional lives Interest in them continues to grow and they are becoming
the go to applications for students academics engineers lawyers designers writers media experts programmers politicians
artists and citizens across the globe However understanding these applications can be technical with precious little advice
out there This book cuts through the jargon to explain the what why and how of generative AI and LLM applications This
book summarizes experiences from a variety of applications relevant to our daily lives It brings together scientifically
grounded experience reports from different perspectives into a one stop title With an international outlook and featuring
global case studies it offers insights into the beneficial use of LLMs and generative AI including future trends for how the
journey of using such amazing tools will continue in the future This book details the history of AI reviews LLM literature and
covers neural computing and the technical foundation of LLMs Furthermore the use and control of LLMs in education are
covered Through reading this book the reader will develop a full understanding of AI and LLM applications including
knowledge of the key issues of trust legality security and technical foundations Artificial Intelligence and Large Language
Models A Scientific Perspective will appeal to students and academics as well as people interested in the use of LLMs and
generative AI for professional or everyday tasks including those in Human Factors Human Computer Interaction Computer
Science Software Engineering and Industrial Engineering

Eduliterature (Applied Literature in Language Education) Aang Fatihul islam, 2024-05-17 The book entitled Eduliterature Applied Literature in Language Education is an
applied literary theory book specifically designed for the development of literary theory used for language education
purposes This book is really the outcome of extensive research using literary theory and methods to improve language
instruction Naturally this is a difficult task that calls for research testing and the guts to present literature as an alternative
in the field of education particularly language instruction The author has organized the book's contents so that readers can
quickly understand them This includes a section on the fundamental ideas of eduliterature as well as sections on the
relationship between literature and education the value of literature in education how to use literature in the classroom the

idea of eduliterature development in the digital age and examples of research using theory Education literature s evolution In order to immerse readers and literature enthusiasts in an engaging and colorful learning environment this book should serve as a breath of fresh air and inspiration Though there is still much work to be done reader comments and suggestions will help make this book better in the future
