1. Based on the grid below, identify each function below as being a polynomial function. Explain.

2. Identify each of the functions below that are **not** polynomials. Explain. These are things you should know how to do now (just by looking at the function's graphability to determine if **not** - not as good as having an equation).

This is being presented with the goal of the same direction.

3. Graph each of the functions part 2 (smooth curves) on your grid. How does the graph of each function look? Is it a polynomial? Explain.

Remember, the functions above that are **not** polynomials are **not** polynomials. Some of the polynomials are **not** polynomials. Some of the polynomials are **not** polynomials. Some of the polynomials are **not** polynomials.

Remember, the functions above that are **not** polynomials are **not** polynomials.
