Learner English Michael Swan, Bernard Smith, 2001-04-26 A practical reference guide to help teachers to predict and understand the problems their students have

Learner English Michael Swan, Bernard Smith, 2001-04-26 This updated edition is a practical reference guide which compares the relevant features of a student's own language with English helping teachers to predict and understand the problems their students have

Learner English has chapters focusing on major problems of pronunciation grammar vocabulary and other errors as well as new chapters covering Korean Malay Indonesian and Polish language backgrounds

Learner English on Computer Sylviane Granger, 2014-02-04 The first book of its kind

Learner English on Computer is intended to provide linguists students of linguistics and modern languages and ELT professionals with a highly accessible and comprehensive introduction to the new and rapidly expanding field of corpus based research into learner language

Edited by the founder and co-ordinator of the International Corpus of Learner English ICLE the book contains articles on all aspects of corpus compilation design and analysis

The book is divided into three main sections in Part I the first chapter provides the reader with an overview of the field explaining links with corpus and applied linguistics second language acquisition and ELT

The second chapter reviews the software tools which are currently available for analysing learner language and contains useful examples of how they can be used

Part 2 contains eight case studies in which computer learner corpora are analysed for various lexical discourse and grammatical features

The articles contain a wide range of methodologies with broad general application

The chapters in Part 3 look at how Computer Learner Corpus CLC based studies can help improve pedagogical tools EFL grammars dictionaries writing textbooks and electronic tools

Implications for classroom methodology are also discussed

The comprehensive scope of this volume should be invaluable to applied linguists and corpus linguists as well as to would be learner corpus builders and analysts who wish to discover more about a new exciting and fast growing field of research

A Corpus Study of Collocation in Chinese Learner English

Yuanwen Lu, 2016-12-08 Based on two corpora LOCNESS Louvain Corpus of Native English Essays and MLC Non English major Mainland Chinese Learner Corpus this book explores the grammatical and lexical collocations of Chinese learner English

As one of the first systematic studies to investigate collocations in Chinese learner English based on learner corpora this book provides significant implications for foreign language teaching and learning

Information Highlighting in Advanced Learner English

Marcus Callies, 2009-04-08 This book presents the first detailed and comprehensive study of information highlighting in advanced learner language echoing the increasing interest in questions of near native competence in SLA research and contributing to the description of advanced interlanguages

It examines the production and comprehension of specific means of information highlighting in English by native speakers and German learners of English as a foreign language presenting triangulated experimental and learner corpus data as corroborating evidence

The study focuses on learners use of discourse pragmatically motivated variations of the basic word order such as inversion preposing

and it and wh clefts an underexplored field in SLA research to date The book also provides a critical re assessment of the study of pragmatics within SLA It has largely been neglected to date that L2 pragmatic knowledge includes more than the sociopragmatic and pragmalinguistic abilities for understanding and performing speech acts Thus the book argues for an extension of the scope of inquiry in interlanguage pragmatics beyond the cross cultural investigation of speech acts It also discusses pedagogical implications for foreign language teaching and will be of interest to applied linguists and SLA researchers language teachers and curriculum designers

Corpus-based Language Studies Tony McEnery, Richard Xiao, Yukio Tono, 2006 Routledge Applied Linguistics is a series of comprehensive textbooks providing students and researchers with the support they need for advanced study in the core areas of English language and Applied Linguistics Each book in the series guides readers through three main sections enabling them to explore and develop major themes within the discipline Section A Introduction establishes the key terms and concepts and extends readers techniques of analysis through practical application Section B Extension brings together influential articles sets them in context and discusses their contribution to the field Section C Exploration builds on knowledge gained in the first two sections setting thoughtful tasks around further illustrative material This enables readers to engage more actively with the subject matter and encourages them to develop their own research responses Throughout the book topics are revisited extended interwoven and deconstructed with the reader s understanding strengthened by tasks and follow up questions Corpus Based Language Studies covers the major theoretical approaches to the use of corpus data adopts a how to approach with exercises and cases affording students with the knowledge and tools to undertake their own corpus based research gathers together influential readings from leading names in the discipline including Douglas Biber Henry Widdowson Michael Stubbs Ronald Carter and Michael McCarthy is supported by a website featuring long extracts for analysis by students with commentary by the authors The accompanying website to this book can be found at <http://www.routledge.com/textbooks/0415286239>

publikace je sborník z 21 příspěvků přednesených na 9 roční konferenci Teaching and Learning Corpora, která se uskutečnila na Masarykově univerzitě v létě 2010. Statisticky byly vybrány na základě dvou anonymních posudků poskytnutých vdeckou radou konané konference. Kniha se zabývá rozmanitými způsoby využití jazykových korpusů při výuce a při studiu cizího jazyka a je rozdělena do čtyř oddílů. Oddíl 1 a 2 pohledy na korpus jako vstupní zdroj zkoumají nejednoznačně, jak mohou korpusy obohatit výuku jazyka, potom na konkrétních případech ukazují, jak převzaté poznatky do praxe a nakonec hodnotí jednotlivé využití korpusu studenty. Oddíl 3 a 4 tematizují korpus jako nástroj, který představuje porovnání s korpusy rodilých mluvčích a následnou identifikaci chyb i problémových oblastí, ale také ukazují, co studenti mohou vidět a skutečně v různých rovinných pokroích a pokoušeli se zodpovědně na otázky, co nám tyto informace říkají o samotném procesu učení.

World Englishes and Second Language Acquisition Michael Percillier, 2016-09-07 Bridging the gap between the fields of World Englishes and Second Language Acquisition, this volume offers an in-depth comparative analysis of two postcolonial varieties of English: Singapore and Malaysian English and neighbouring Indonesian learner English, in order to examine the Outer Expanding Circle distinction and shed light on the genesis of postcolonial varieties of English. The study identifies and analyses more than thirty linguistic features in the categories phonology, morphology, syntax and discourse, concluding that in spite of clear syntactic differences the distinction between the Outer and Expanding Circles is gradual rather than strictly categorical and should rely on current sociolinguistic realities rather than on historical criteria. The volume will be highly relevant for researchers interested in the dynamics of Outer Circle and Expanding Circle Englishes, the structural and sociolinguistic aspects of English in Southeast Asia or the integration of the paradigms of World Englishes and Second Language Acquisition. *World Englishes and Second Language Acquisition* received honourable mention at the 2018 ESSE Book Awards.

How to Use Corpora in Language Teaching John McHardy Sinclair, 2004-01-01 After decades of being overlooked, corpus evidence is becoming an important component of the teaching and learning of languages. Above all, the profession needs guidance in the practicalities of using corpora: interpreting the results and applying them to the problems and opportunities of the classroom. This book is intensely practical, written mainly by a new generation of language teachers who are acknowledged experts in central aspects of the discipline. It offers advice on what to do in the classroom, how to cope with teachers' queries about language, what corpora to use (including learner corpora and spoken corpora) and how to handle the variability of language; it reports on some current research and explains how the access software is constructed, including an opportunity for the practitioner to write small but useful programs, and it takes a look into the future of corpora in language teaching.

Metaphors in Learner English Susan Nacey, 2013-11-15 This volume presents results from a corpus-based investigation into the metaphorical production of foreign language learners, comparing texts written by Norwegian L2 learners of English with those written by British L1 students. Three types of questions are addressed: The first has empirically measured answers. For example, do L2 English writers produce more metaphors than L1 novice writers? How frequent are novel metaphors in an L2 as compared with an L1? The

second type has more subjective answers How creatively do L2 English learners employ metaphor Are they even expected to be able to produce metaphor at all The third type combines theoretical and methodological perspectives How is metaphorical creativity identified What is the potential role of metaphoric competence Most importantly how are metaphors identified To this end the newly developed Metaphor Identification Procedure is tested and critiqued This book is intended for metaphor researchers corpus linguists applied linguists and language educators [The Massachusetts Register](#) ,2017-07-28
