Answers for Changes in Supply

Part a

Based on the information provided in Figure 13.2, each event will be judged as one of two changes in supply: a rightward shift (shown to the right of the baseline) or a leftward shift (shown to the left of the baseline). The direction of the shift will depend on whether the event will cause a change in supply. The direction of the shift will depend on whether the event will cause a change in supply. In the first column, the direction of the shift is indicated as right (R) or left (L) for the corresponding event. The Figure 13.2 is to help you determine what a right (R) or left (L) shift would mean for the supply curve. The direction of the shift in supply will depend on the event.
