Imposter Syndrome and AI: Navigating Human Identity in the Age of Intelligent Machines Razzak Janjua, Laeeq, Edina, Kozma Dorottya, Singh, Bhupinder, 2026-01-28 With the rapid advancements in artificial intelligence AI the boundaries between human capability and machine intelligence are increasingly blurred As AI demonstrates creativity and problem solving mimicry once thought to be uniquely human many individuals find themselves questioning their own value and authenticity as a manifestation of imposter syndrome The rise of intelligent

technology not only transforms industries and daily life but also challenges our understanding of what it means to be truly intelligent or even human. Imposter Syndrome and AI Navigating Human Identity in the Age of Intelligent Machines explores how AI is changing humans definition of identity. The book explains the psychological and emotional impact about the development and exacerbation of impostor syndrome in an increasingly developed AI world. Covering topics such as artificial intelligence, human identity and psychology, this book is an excellent resource for educators, academicians, policymakers, technology developers, human resource leaders and graduate students.

The Routledge Handbook of Communication and Social Cognition Torsten Reimer, Lyn M. van Swol, Arnd Florack, 2026-02-26. This handbook provides a comprehensive understanding of theory, research and applications of research in communication and social cognition. Written by leading figures across an array of disciplines, chapters in this handbook explicate the interplay of communication and social cognition to form a vantage point for the study of concepts such as framing, stereotypes, social perceptions, mood and affect, intergroup conflict, media effects, decision making and language and thought that are widely used in the social cognitive and behavioral sciences. The book is divided into seven sections; the first two sections reflect basic discussions about how processes of thought and communication are related and how social realities are influenced by aspects of communication. Sections 3-6 address specified fields including interpersonal communication, communication between groups, digital communication and communication in applied fields of marketing, media and health, and the final section describes innovative methods to pursue the study of communication and social cognition. This handbook integrates advances in theory and research that are rooted in and will be of interest to the fields of communication, psychology, cognitive science, media studies, linguistics, marketing, public health, management and organizational studies.
