these narratives seek to trigger and draw on in the process

Threshold Concepts in Women's and Gender Studies

Christie Launius, Holly Hassel, 2018-02-20 *Threshold Concepts in Women's and Gender Studies: Ways of Seeing, Thinking, and Knowing* is a textbook designed primarily for introduction to Women's and Gender Studies courses with the intent of providing both skills and concept-based foundation in the field. The text is driven by a single key question: What are the ways of thinking, seeing, and knowing that characterize Women's and Gender Studies and are valued by its practitioners? Rather than taking a topical approach, *Threshold Concepts* develops the key concepts and ways of thinking that students need in order to develop a deep understanding and to approach material like feminist scholars do across disciplines. This book illustrates four of the most critical concepts in Women's and Gender Studies: the social construction of gender, privilege and oppression, intersectionality, and feminist praxis, and grounds these concepts in multiple illustrations. The second edition includes a significant number of updates, revisions, and expansions: the case studies in all five chapters have been revised and expanded, as have the end-of-chapter elements; statistics have been updated, and numerous references to significant news stories and cultural developments of the past three years have been added. Finally, many more callbacks to previous chapters have been incorporated throughout the textbook in order to remind students to carry forward and build upon what they have learned about each threshold concept even as they move on to a new one.

Teaching Gender and Sex in Contemporary

America Kristin Haltinner, Rynne Pilgeram, 2016-04-28 This book provides innovative pedagogy, theory, and strategies for college and university professors who seek effective methods and materials for teaching about gender and sex to today's students. It provides thoughtful reflections on the new struggles and opportunities instructors face in teaching gender and sex during what has been called the post-feminist era. Building off its predecessor, *Teaching Race and Anti-Racism in Contemporary America*, this book offers complementary classroom exercises for teachers that foster active and collaborative learning. Through reflecting on the gendered dimensions of the current political, economic, and cultural climate, as well as presenting novel lesson plans and classroom activities, *Teaching Gender and Sex in Contemporary America* is a valuable resource for educators.

Race, Gender and Violence on the Transatlantic Extreme Right, 1969-2009 Simon A. Purdue, 2022-10-20 This book explores the central role that gender has historically played in violent far-right movements and groups in a time of increasing political polarisation and rising extremism. The author examines the way neo-Nazis and white supremacists have constructed gender and how this has impacted on the practical role of men and women on the global extreme right between 1969 and 2009, giving valuable insight into the inner workings of the extremist fringe today. In the context of rising violent

ultra nationalism in the UK Eastern Europe the USA India and Russia this transnational history of racist extremist movements offers a very necessary glimpse into the intimate personal politics of organised hate and into the ideological and organisational roots of our current moment In order to fully understand the extreme right it is essential to develop an awareness of the deep social foundations that underlie it By exposing the gendered basis of racist extremism in the USA and UK this book makes a necessary intervention in the field of far right studies shedding new light on the shadowy corners of the political spectrum and ultimately opening new avenues for countering hate on the personal political and academic level The book seeks to explain the intricate relationship between organised racist extremism and ideological misogyny and explores the fundamental contradictions and inconsistencies that underlie women s far right activism Offering historical context to the current social and political moment in which white supremacist and far right terror presents an immediate threat to security and stability in both the USA and the UK this book provides useful insights for those researching the history of fascism and the far right violent social movements and political activism as well as women s history and gender studies

Doing Gender. Social Construction of Gender in School, 2022-02-02 Seminar paper from the year 2011 in the subject Gender Studies grade 1.3 Leuphana University Lüneburg language English abstract Gender role behavior is learned from an early age and encouraged by the role expectations of the environment Thinking in two sexes results in ideas and expectations in every human being as to how one s own or the opposite sex should be or behave These ideas are a formative and formative element in interaction and communication In this way gender is constantly being produced as a social construction in everyday life This process is called Doing Gender The institution of school is also a social system in which the construction of gender plays an important role As part of this work the topic of Doing Gender in primary school is dealt with The aim is to work out how teachers contribute to the construction of gender in primary school There are only a few studies on this not entirely uncomplicated field of school research to date This is surprising since teachers play an important role in the design of everyday school life First a basis for the further procedure is created by defining the terms gender and doing gender The next chapter deals in more detail with gender in primary school For this purpose the gender differences in terms of performance and interactions between pupils and teachers are also discussed Afterwards teaching examples will be used to show how Doing Gender takes place at school The last chapter explains how gender differences and stereotyping can be avoided by means of a gender sensitive school atmosphere For this purpose it is first presented what constitutes a gender sensitive school what challenges arise for the teachers and how the

blockages to gender sensitive action can be put an end to Gender, Rights, Development, and Islam Kari Bergstrom Henquinet, 2007 Catalog University of Colorado Boulder, 2009 *Gender Relations in a Global World* Virginia Guzmán, 2002 On January 20 1994 the worshippers at the Toronto Airport Vineyard Church began to feel the Holy Spirit move them They began to laugh uncontrollably collapse to the floor stagger as if drunk But what was truly startling in this occurrence now commonly known as the Toronto Blessing is that these manifestations keep appearing at the Toronto church and have sparked a worldwide charismatic revival Visitors from around the world have come and started revivals in their home churches upon return In *Main Street Mystics* Margaret Poloma explains what is happening with this contemporary charismatic revival without explaining it away From her unique position as both a scholar and a pilgrim Poloma offers an intimate account of the movement while always attempting to understand it through the lenses of social science She looks at Pentecostalism as a form of mysticism but a mysticism that engages Pentecostals and charismatics in the everyday world With its broad overview and up close portraits *Main Street Mystics* is essential for anyone wanting to understand the ever renewing movement of Pentecostalism *Seeing Nature Through Gender* Virginia Scharff, 2003 Environmental history has traditionally told the story of Man and Nature Scholars have too frequently overlooked the ways in which their predominantly male subjects have themselves been shaped by gender *Seeing Nature through Gender* here reintroduces gender as a meaningful category of analysis for environmental history showing how women's actions desires and choices have shaped the world and seeing men as gendered actors as well In thirteen essays that show how gendered ideas have shaped the ways in which people have represented experienced and consumed their world Virginia Scharff and her coauthors explore interactions between gender and environment in history Ranging from colonial borderlands to transnational boundaries from mountaintop to marketplace they focus on historical representations of humans and nature on questions about consumption on environmental politics and on the complex reciprocal relations among human bodies and changing landscapes They also challenge the ecofeminist position by challenging the notion that men and women are essentially different creatures with biologically different destinies Each article shows how a person or group of people in history have understood nature in gendered terms and acted accordingly often with dire consequences for other people and organisms Here are considerations of the ways we study sexuality among birds of William Byrd's masking sexual encounters in his account of an eighteenth century expedition of how the ecology of fire in a changing built environment has reshaped firefighters own gendered identities Some are playful as in a piece on the evolution of snow bunnies to shred bunnies Others are dead serious as in a chilling portrait of how endocrine disruptors are reinventing humans animals and water systems from the cellular level out Aiding and adding significantly to the enterprise of environmental history *Seeing Nature through Gender* bridges gender history and environmental history in unexpected ways to show us how the natural world can remake the gendered patterns we've engraved on ourselves and on the planet **Gender, Power, and Population Change** Nancy E.
