Counteracting Containment Policies in the EU Jenny Poon,2025-10-22 This monograph examines an individual s right not to be returned to places where they may be in danger of serious human rights violations termed non refoulement It argues that EU asylum practices can lead to a failure to observe this important right As dire consequences can result if individuals are returned to places where they may face death torture or other cruel treatment the European asylum system must comply with non refoulement However EU countries use various tactics including legal measures to contain asylum claimants and refugees to other countries and to evade their responsibilities to observe non refoulement under international and European law These containment strategies are demonstrated in two case study examples the United Kingdom and Germany In the first example the United Kingdom returns asylum claimants and refugees back to transit countries where they did not claim asylum This method of containing asylum claimants and refugees effectively increases the chances of them being indirectly returned to face violations of human rights In the second example Germany returns these claimants and refugees through transfer processes back to another EU country by relying solely on guarantees from national governments This effectively contains the claimants and refugees outside of Germany again increasing the risks of human rights violations As violence and conflicts persist this book contributes to existing literature by providing human rights law analysis with a unique lens of containment
