Novel Gothic Fantasy:

Gothic Fiction/Gothic Form George E. Haggerty, 2010-11-01 This work offers a new perspective on Gothic fiction and reassesses its place in literary history After defining his concept of affective form and summarizing the problematic assumptions behind recent critical approaches to the Gothic George Haggerty introduces a startling theoretical discussion of the Gothic Tale and he explains in what ways the tale as a form with identifiable affective properties is ideally suited to Gothic concerns Having established a direct relation between this study and recent discussions of narratology and generic identity Haggerty develops his argument as it applies to major Gothic works in both England and America including works by Walpole Radcliffe Lewis Maturin Shelley Bronte Poe Hawthorne and James He examines the Gothic Tale as a form that resolves the inconsistency and incoherence of many Gothic novels and offers even the best of them a center of focus and a way of achieving their fullest affective power In this study the Gothic Tale emerges as a means of heightening the emotional intelligibility of Gothic fiction and answering Walpole s confused desire to unite two kinds of romance in the Gothic It is a form that can answer the ontological and epistemological as well as the structural challenge of the Gothic writers From its first hints within the Gothic novel as an alternative literary mode offering the Gothicists various expressive advantages to its eerie success in a work such as James s *The Jolly Corner* the Gothic Tale offers insight into generic distinction and literary expression This is a major statement about an important literary form

Gothic Fiction and the Invention of Terrorism Joseph Crawford, 2013-09-12 Choice Outstanding Academic Title 2014 This book examines the connections between the growth of terror fiction the genre now known as Gothic in the late eighteenth century and the simultaneous appearance of the conceptual origins of terrorism as a category of political action In the 1790s Crawford argues four inter-connected bodies of writing arose in Britain the historical mythology of the French Revolution the political rhetoric of terrorism the genre of political conspiracy theory and the literary genre of Gothic fiction known at the time as terrorist novel writing All four bodies of writing drew heavily upon one another in order to articulate their shared sense of the radical and monstrous otherness of the extremes of human evil a sense which was quite new to the eighteenth century but has remained central to the ways in which we have thought and written about evil and violence ever since
