The Business Model Navigator ePub eBook Oliver Gassmann, Karolin Frankenberger, 2014-11-11 A strong business model is the bedrock to business success. But all too often we fail to adapt, clinging to outdated business models that are no longer delivering the results we need. The brains behind The Business Model Navigator have discovered that just 55 business models are responsible for 90% of our most successful businesses. These 55 models, from the Add On model used by Ryanair to the Subscription model used by Spotify, provide the blueprints you need to revolutionise your business, spark innovation and drive powerful change. As well as providing a practical framework for adapting and innovating your business model, this book also includes each of the 55 models in a quick read format that covers: What it is, Who invented it and who uses it now, When and how to apply it. The full text downloaded to your computer. With eBooks you can search for key concepts, words and phrases, make highlights and notes as you study, share your notes with friends. eBooks are downloaded to your computer and accessible either offline through the Bookshelf (available as a free download) available online and also via the iPad and Android apps. Upon purchase you will gain instant access to this eBook. Time limit: The eBooks products do not have an expiry date. You will continue to access your digital eBook products whilst you have your Bookshelf installed. Business Model Generation Osterwalder, 2013-04-04 Integrated Intelligence Ulrich Lichtenthaler, 2020-02-12 Integrated Intelligence as a Competitive Advantage. How can companies profit from artificial intelligence? So far, most firms use AI tools primarily for enhancing efficiency and automating jobs. However, artificial intelligence provides many more opportunities. Ulrich Lichtenthaler shows that companies can achieve an unbeatable competitive advantage by making AI a core part of their innovation strategies. The targeted integration of human and artificial intelligence, which goes beyond standardized applications, enables an enhanced form of intelligence: a super intelligence or Intelligence x. This book will show executives, HR professionals and consultants how to gradually develop Intelligence x in large and medium-sized organizations and how to use SMART leadership principles and the I3 Integrated Intelligence Incubator as tools for building a unique intelligence architecture. With detailed guidelines for implementation and with many examples from the world's most innovative companies, as well as from start-ups, Integrated Intelligence reveals how executives can achieve a sustainable competitive advantage through intelligence-based business models. Global Strategy Sali Li, Noman Shaheer, 2025-01-07 Global Strategy is a groundbreaking textbook that redefines the field of global strategy, shifting the focus from scaling established businesses to creating innovative businesses responding to international market needs. It equips future multinational leaders with the tools and insights needed to succeed in the rapidly evolving world of global business. Generación de modelos de negocio Alexander Osterwalder, Yves Pigneur, 2013-02-14 En estos últimos años hemos asistido a la llegada de nuevos modelos de negocio disruptivos que han cambiado el paisaje de los mercados. Todos tienen un denominador común: rompen con la tradición y con las características de los modelos de negocio tradicionales que hasta ahora habían dominado el mundo. En este

libro los analizamos y te ofrecemos las herramientas muy sencillas y de eficacia probada para que puedas diseñarlos e implementarlos. Asimismo te mostramos las técnicas y modelos más innovadoras que actualmente están utilizando las principales empresas de todo el mundo. Con Generación de modelos de negocio aprenderás a diseñar, entender y aplicar nuevos modelos de negocio, así como a analizar y mejorar los ya existentes. Con la colaboración de 470 expertos, estrategias de todo el mundo. Generación de modelos de negocio es fiel a su filosofía tanto en el diseño atractivo y práctico de su presentación como en su contenido, al que han contribuido 470 profesionales de todo el mundo con una dilatada experiencia. La traducción al español también ha contado con la participación de 18 expertos del panorama hispanoamericano. Diseñado para gente dinámica. Para una mayor comodidad, el diseño del libro es completamente visual y a todo color, lo que permite una lectura fácil, agradable y entretenida. No es meramente un libro convencional, es una guía práctica sobre innovación empresarial de utilidad para visionarios, emprendedores, profesionales y defensores de la eficacia y de la mejora continua.

SUMMARY Edition
Shortcut (author), 1901 [Summary of Alexander Osterwalder & Yves Pigneur's Business Model Generation](#) Everest Media, 2022-05-21T22:59:00Z. Please note: This is a companion version, not the original book. Sample Book Insights 1. A business model describes the rationale behind how an organization creates, delivers, and captures value. It is like a blueprint for a strategy to be implemented through organizational structures, processes, and systems. 2. Customers are the heart of any business model. A company must make a decision about which segments to serve and which to ignore. Once this decision is made, a business model can be designed around a strong understanding of specific customer needs. 3. Business models differentiate between market segments with slightly different needs and problems. For example, a bank's retail arm may serve a large group of customers with assets of up to 100,000, while a smaller group of affluent clients has a net worth of more than 500,000. 4. An organization with a diversified customer business model serves two unrelated Customer Segments with very different needs and problems. For example, in 2006 Amazon.com began selling cloud computing services.

Business Model Generation Alexander Osterwalder, Yves Pigneur, 2013-02-01. Business Model Generation is a handbook for visionaries, game changers, and challengers striving to defy outmoded business models and design tomorrow's enterprises. If your organization needs to adapt to harsh new realities but you don't yet have a strategy that will get you out in front of your competitors, you need Business Model Generation. Co-created by 470 Business Model Canvas practitioners from 45 countries, the book features a beautiful, highly visual, 4-color design that takes powerful strategic ideas and tools and makes them easy to implement in your organization. It explains the most common Business Model patterns based on concepts from leading business thinkers and helps you reinterpret them for your own context. You will learn how to systematically understand, design, and implement a game-changing business model or analyze and renovate an old one. Along the way, you'll understand at a much deeper level your customers, distribution channels, partners, revenue streams, costs, and your core value proposition. Business Model Generation features practical innovation techniques used today by leading consultants and companies worldwide, including
