At the Chef's Table Vanina Leschziner,2015-06-03 This book is about the creative work of chefs at top restaurants in New York and San Francisco Based on interviews with chefs and observation in restaurant kitchens the book explores the question of how and why chefs make choices about the dishes they put on their menus It answers this question by examining a whole range of areas including chefs careers restaurant ratings and reviews social networks how chefs think about food and go about creating new dishes and how status influences their work and careers Chefs at top restaurants face competing pressures to deliver complex and creative dishes and navigate market forces to run a profitable business in an industry with exceptionally high costs and low profit margins Creating a distinctive and original culinary style allows them to stand out in the market but making the familiar food that many customers want ensures that they can stay in business Chefs must make choices between these competing pressures In explaining how they do so this book uses the case study of high cuisine to analyze more generally how people in creative occupations navigate a context that is rife with uncertainty high pressures and contradicting forces
