## **The Politics Of Freedom:**

**The Politics of Freedom: Taking on The Left, The Right and Threats to Our** David Boaz, 2008-01-18 Author David Boaz discusses the roots of American freedom the growing libertarian vote in America the arrogance of politicians and everything from taxes and education to terrorism and the war on drugs *The Politics of Freedom* Arthur Meier Schlesinger (Jr.), Thomas Malcolm Muggerridge, 1950

**Isaiah Berlin and the Politics of Freedom** Bruce Baum, Robert Nichols, 2013-03-05 Since his death in 1997 Isaiah Berlin's writings have generated continual interest among scholars and educated readers especially in regard to his ideas about liberalism value pluralism and positive and negative liberty Most books on Berlin have examined his general political theory but this volume uses a contemporary perspective to focus specifically on his ideas about freedom and liberty Isaiah Berlin and the Politics of Freedom brings together an integrated collection of essays by noted and emerging political theorists that commemorate in a critical spirit the recent 50th anniversary of Isaiah Berlin's famous lecture and essay Two Concepts of Liberty The contributors use Berlin's essay as an occasion to rethink the larger politics of freedom from a twenty first century standpoint bringing Berlin's ideas into conversation with current political problems and perspectives rooted in postcolonial theory feminist theory democratic theory and critical social theory The editors begin by surveying the influence of Berlin's essay and the range of debates about freedom that it has inspired Contributors chapters then offer various analyses such as competing ways to contextualize Berlin's essay how to reconsider Berlin's ideas in light of struggles over national self determination European colonialism and racism and how to view Berlin's controversial distinction between so called negative liberty and positive liberty By relating Berlin's thinking about freedom to competing contemporary views of the politics of freedom this book will be significant for both scholars of Berlin as well as people who are interested in larger debates about the meaning and conditions of freedom

*The Vital Center* Arthur Meier Schlesinger (Jr.), 1970 [Ronald Reagan and the Politics of Freedom](#) Andrew E. Busch, 2001-08-28 In *Ronald Reagan and the Politics of Freedom* Andrew E. Busch goes beyond economic and foreign policies to examine Reagan's understanding of statesmanship Busch analyzes Reagan's conscious attempt to strengthen the separation of powers federalism and traditional rhetoric and his efforts to revive the notion of limited government in a Constitutional Republic In this important new study Busch concludes that Ronald Reagan's politics of freedom found in his discourse policy and coalition building achieved significant successes in the 1980s and beyond

**The Vital Center** Arthur Meier Schlesinger, 1949 With a new introduction by the author *The Vital Center* is an eloquent and incisive defense of liberal democracy against its rivals to the left and to the right communism and fascism It shows how the failures of free society had led to the mass escape from freedom and sharpened the appeal of totalitarian solutions It calls for a radical reconstruction of the democratic faith based on a realistic understanding of human limitation and frailty

**Michel Foucault and the Politics of Freedom** Thomas L. Dumm, 2002 This edition of a 1995 book Sage Publications contains a new introduction by

the series editor and a new preface Readers familiar with Foucault's work will appreciate the difficulty in critically studying its arresting paradoxical nature Dumm political science Amherst College negotiates the problem by creating a thematic framework the idea of being free in a modern Western capitalist democracy and examining it through a Foucaultian lens He focuses on the politics of freedom negative freedom the disciplinary society ethics seduction governments and provides an enlightening companion to Foucault's postmodern philosophy Annotation copyrighted by Book News Inc Portland OR

*The Vital Center* Arthur Meier Schlesinger (Jr.), 1970 Muslim Civil Society and the Politics of Religious Freedom in Turkey Jeremy F. Walton, 2017-04-03 The sway of Islam in political life is an unavoidable topic of debate in Turkey today Secularists Islamists and liberals alike understand the Turkish state to be the primary arbiter of Islam's place in Turkey as the coup attempt of July 2016 and its aftermath have dramatically illustrated Yet this emphasis on the state ignores the influence of another field of political action in relation to Islam that of civil society Based on ethnographic research conducted in Istanbul and Ankara Muslim Civil Society and the Politics of Religious Freedom in Turkey is Jeremy F Walton's inquiry into the political and religious practices of contemporary Turkish Muslim Nongovernmental Organizations Since the mid 1980s Turkey has witnessed an efflorescence of NGOs in tandem with a neoliberal turn in domestic economic policies and electoral politics One major effect of this neoliberal turn has been the emergence of a vibrant Muslim civil society which has decentered and transformed the Turkish state's relationship to Islam Muslim NGOs champion religious freedom as a paramount political ideal and marshal a distinctive nongovernmental politics of religious freedom to advocate this ideal Walton's accomplished study offers a fine grained perspective on this nongovernmental politics of religious freedom and the institutions and communities from which it emerges The Politics of Freedom C. W. Cassinelli, 1962 *The Works of Orestes A. Brownson: Politics* Orestes Augustus Brownson, 1885 *A Theory of Freedom* Philip Pettit, 2001 In this short yet ambitious work Philip Pettit offers a single unified and overarching theory of freedom A puzzling topic freedom extends from the individual and the metaphysical i.e. free will to the social and the political yet a theory connecting these two realms has yet to be devised In an elegant accessible manner Pettit presents a survey of available theories of freedom then develops his own one that manages to straddle the personal and political spheres The view he develops which includes the seemingly paradoxical notion that we are free to the extent that we are capable of being held responsible will make this pioneering book highly important to a wide range of philosophers *Randolph Bourne and the Politics of Cultural Radicalism* Leslie J. Vaughan, 1997 Reassesses the short life and career of American essayist critic and founder of cultural radicalism Bourne 1886 1918 known today mostly for his opposition to US military involvement in Europe and warnings about the military industrial complex Vaughan political science U of Minnesota Duluth argues that his stance from outside establishment perspectives was not a retreat from politics as many have claimed but a form of political engagement free from the suppositions that impede genuine debate and democratic change Annotation copyrighted by Book News Inc Portland OR

**The Politics of Freedom of Expression** M. Richards, 2013-08-06 The principle of content neutrality is the cornerstone of freedom of expression jurisprudence protecting the core values of freedom of speech set out in the first amendment whilst also enabling the government to place reasonable restrictions on protected speech The Politics of Freedom of Expression examines the US Supreme Court's decision making in freedom of expression cases from the Earl Warren Court in 1953 to the 2012 decisions of the John Roberts Court assessing the extent to which the justices take into consideration their own political attitudes jurisprudence and external factors such as federal government participation In doing so the book highlights the role of the civil rights movement in developing the content neutrality jurisprudential regime Establishing jurisprudential regime theory as a framework for incorporating the various factors that can affect decision making the author draws on quantitative qualitative and interpretive methods in order to analyse the justices changing treatment of content based and content neutral cases over time This unique theoretical approach allows the text to push beyond the traditional law versus politics debate in order to critically evaluate the importance of content neutrality to the Supreme Court's decision making and to compare decision making in the US with Canada Germany Japan and the UK
