and third party agencies Design of Experiments (DOE) Using Design Expert V. 10: a Practical Guide for Process Optimization Manos Paraskevas,2017-11-05 They are a lot of software in the market which offer DOE and they are pretty much similar to each other So far I am using for my daily tasks Minitab which offers the option for Design of Experiments among others From financial perspective it worth to spend time and build your competence in Minitab as you can do DOE Multivariate Regression Analysis Factor Analysis using PCA Principal Component Analysis ANOVA t test in one software package In my book I will focus on Design Expert v 10 from StatEase I am using the free trial version for 30 days and you can download it from <http://www.statease.com> for two reasons 1 I love this software for its simplicity For me it was love at first sight as I can do all my DOE without having programming skills of course MATLAB can offer more options and graphs but I have not spent time to learn how to code properly It is part of my improvement project for 2018-2020 2 There is a gap in the literature for using Design Expert Of course you can find guides and countless of scientific papers of using Design Expert but my intention is to explain the necessary steps you need to follow to complete your first experimental design
