**The Society-Individual Conflict in Morten Tyldum's Film "The Imitation Game" (2014)** Karina Kovalenko,2016-06-09 Essay from the year 2016 in the subject Communications

Interpersonal Communication grade 86 LCC International University course Interpersonal Communication language English abstract *The Imitation Game* 2014 is a historical drama movie directed by Morten Tyldum based on the book *Alan Turing The Enigma* by Andrew Hodges The film is about life of a famous British mathematician and cryptanalyst Alan Turing who is famous by the deciphering of the German Enigma coding machine during the World War II On the one hand the movie tells a story of a person with a brilliant mind who changed the course of the world history but on the other hand this film is a

personal drama that depicts complicated relationships between Alan and other people Alan has lack of communication skills and his perception of the reality differs from others ones Being misunderstood and rejected by people because of the peculiarity during his college years Turing closes himself from the world except one friend At the beginning of the World War II he joins the secret cryptographers team creates a computer prototype machine and solves the Enigma mystery The film brightly shows main character s communication difficulties and his inability to collaborate in a team After years being caught by a policeman executed and suffered from the punishment the only one person who could understand him Joan Clarke visits him and witnesses his mental and health problems the results of the execution I found it very interesting to analyze the development of the relationships between Turing and other people in the movie how he confronts and deals with life and communication difficulties and also Turing s personality The film s thread of society s suppressing on Alan and eventually death from it also shows an inability of the society to accept extraordinary individuals That is why I chose three themes to analyze and provide examples from the film perception identity and relationship maintenance The purpose of my paper is to show that Alan Turing tries to understand the society but the society does not want to understand and to admit him
