Chapter 6 Social Fragmentation World Bank:

Practicing Ethnography in a Globalizing World June C. Nash, 2007 In this book distinguished anthropologist June Nash demonstrates how ethnography can illuminate a wide array of global problems She describes encounters with an urban U S community undergoing de industrialization with Mandalay rice cultivators accommodating to post World War II independence through animistic practices with Mayans mobilizing for autonomy and with Andean peasants and miners confronting the International Monetary Fund Havin worked in a great variety of cultural settings around the world Nash challenges us to expand our anthropological horizons and to think about local problems in a global manner **Development Economics** Alain de Janvry, Elisabeth Sadoulet, 2021-05-30 This second edition of Development Economics Theory and Practice continues to provide students and practitioners with the perspectives and tools they need to think analytically and critically about the current major economic development issues in the world Alain de Janvry and Elisabeth Sadoulet identify seven key dimensions of development growth poverty vulnerability inequality basic needs sustainability and quality of life and use them to structure the contents of the text The book gives a historical perspective on the evolution of thought in development It uses theory and empirical analysis to present readers with a full picture of how development works how its successes and failures can be assessed and how alternatives can be introduced The authors demonstrate how diagnostics design of programs and policies and impact evaluation can be used to seek new solutions to the suffering and violence caused by development failures In the second edition more attention has been given to ongoing developments such as pursuit of the Sustainable Development Goals continuously rising global and national inequality health as a domestic and international public good cash transfers for social protection carbon trading for sustainability This text is fully engaged with the most cutting edge research in the field and equips readers with analytical tools for impact evaluation of development programs and policies illustrated with numerous examples It is underpinned throughout by a wealth of student friendly features including case studies quantitative problem sets end of chapter questions and extensive references Excel and Stata exercises are available as digital supplements for students and instructors This unique text is ideal for those taking courses in development economics economic growth and development policy and will provide an excellent foundation for those wishing to pursue careers in development Politics, Social Theory, Utopia and the World-System C. el-Ojeili, 2012-01-25 It is common to hear that we live in unique turbulent and crisis ridden times and this turbulence transformation and crisis are said to be deeply significant perhaps threatening for the human sciences Responding to such claims this book provides an accessible engagement with pressing contemporary topics such as violence social movements equality identity and democracy Foregrounding the imagination of possibilities utopia the mapping of the present theory and the transformation of the world system historical and global questions the book surveys central issues and paradigms in contemporary political sociology urging a recommitment to certain concepts and traditions for guidance in thinking and acting in the world

Public Health in the Arab World Samer Jabbour,2012-03-08 This volume reviews the public health concerns and challenges specific to the complex Arab world from a multidisciplinary perspective

Broken Solidarities Felix Anderl,2024-01-16 Felix Anderl's book is a stimulating analysis of the decline of social movements against the World Bank and the rise of a new form of transnational rule Reflecting on the transnational mobilizations of the 1990s the book examines activists struggles to sustain their momentum It shows how the opening up of world economic institutions contributed to complex rule in global governance creating access for some while weakening their critique and fragmenting the overall movement The book bridges international relations and social movement studies to observe international organizations and social movements in their interaction demonstrating how social movements are divided and ruled in the absence of a ruler

The Autocrat's Predicament Timothy R. Heath,2023-11-03 In their quest for national revival China's leaders under Xi Jinping have sought to improve the economy's performance The disappointing economic record of authoritarian regimes provides ample grounds for doubt yet not all have failed Why have some succeeded where most did not The theory of the enabling condition highlights the central role that politics plays in the pursuit of economic advancement The theory explains that a political situation characterized by a strong central leadership weak elite opposition and a united public offers favorable prospects for enacting concentrated growth policies This arrangement enables the central leadership to enlist the public in convincing elites to implement policies that they might otherwise resist Focusing on the experience of single party authoritarian regimes *The Autocrat's Predicament: The Political Peril of Economic Upgrade in Single Party Authoritarian Regimes* examines episodes in the histories of the People's Republic of China Taiwan and the Soviet Union It concludes that China's unfavorable political situation could be potentially unfriendly for its ambitions to build an efficient highly productive economy

Land Fragmentation in Agriculture Malcolm F. McPherson,1983

The Water Problem Pat Mulroy,2017-03-28 Building water resilience is the single biggest challenge in a changing global climate The United States faces a water crisis as critical as the energy crisis that once dominated headlines Like the energy crisis a solution can be found Pat Mulroy for many years general manager of the Southern Nevada Water Authority the lead negotiator on the Colorado River for the State of Nevada and a Brookings fellow has gathered a number of practitioners and scholars to show us why we face a crisis caused by climate change and what we can do to alleviate it While the focus recently has been on California with its water restrictions and drought many other parts of the United States are also suffering from current and potential water shortages that will only be exacerbated by climate change *The Water Problem* takes us to Miami and the problem of rising oceans fouling freshwater reservoirs Kansas and Nebraska where intensive farming is draining age old aquifers and to the Southwest United States where growing populations are creating enormous stresses on the already strained Colorado River Mulroy and her contributors explore not just the problems but also what we can do now to put in place measures to deal with a very real crisis
