Knowledge of the principal groups of animals is fundamental to understanding the central issues in biology This full color lab  
manual provides a diverse selection of exercises covering the anatomy physiology behavior and ecology of the major  
invertebrate and vertebrate lineages Great care has been taken to provide information in an engaging student friendly way  
The material has been written to be easily adapted for use with any introductory zoology textbook Features Each chapter  
begins with a list of learning objectives that guides the students and focuses their attention on the essential material More  
than 500 full color photographs illustrations and dissection diagrams are presented to clarify procedures and help students  
identify organisms and their anatomical features Numbered procedures are set apart from the main text making the labs  
easier to follow Adequate space is provided for students to write their answers Tables are provided throughout the manual to  
help students summarize key information Check Your Progress questions ensure students are comfortable with the material  
they learn in each exercise Chapter ending questions for review reinforce key concepts and content from the exercises in  
each chapter Many chapters contain Laboratory Practical Challenges to replicate the method of assessment and type of  
questions students may be asked on lab practical exams This manual is customizable Chapters 1 14 could be considered for  
an invertebrate course and Chapters 1 6 and 15 23 could be considered for vertebrate course
