

3.01 Cell Division Virtual Lab Activity

Instructions: You are going to observe the different stages of cell division and discover which phase the cell spends the most time in. The Virtual Cell Division Lab is on the last page of your 3.01 lesson. On the lab image, it says "Continue". Click here and follow the instructions as you move through the lab. The lab activity will keep count of your data on the right, and you can record this into your data table below. Submit the lab using the instructions on the bottom of this lab report.

Title: Include the name of the lab and your name

Cell division by: blaise chevette

Objective(s): Write this *exactly* as you see it in your instructions at the top of this lab report. This describes or summarizes the purpose of the experiment

observe the different stages of cell division and discover which phase the cell spends the most time in.

Hypothesis: The hypothesis should make a prediction of the outcome of your experiment and should include an explanation of *why* you expect that outcome. Please use this format... **IF I observe 50 cells, then I predict that most cells would be in _____ because (evidence about the events in the phase that would make it longer)**

IF I observe 50 cells, then I predict that most cells would be in Interphase

Variables:

Independent- what you change, **Dependent-** what you measure (data), **Controlled-** stays the same

Independent Variable	What the cells function is
Dependent Variable	How many cells are in each phase
Controlled Variable(s)	The plant

Data:

Record the number of cells in each phase that you observed in the lab simulation.
