The School Review, 1915 *Preparing Faculty for Technology Dependency in the Post-COVID-19 Era* Bawa, Papi, 2022-02-04 To cope with the pandemic many educational institutions in the United States have resorted to emergency remote teaching ERT Distance online learning is a complex process in terms of the design analysis and time taken to develop and implement courses and programs Having been around for decades it has evolved and morphed into a multidimensional procedure that needs meticulous planning evolution and evaluation It provides meaningful learning

experiences to students who may not otherwise have the option to attend college. Students of distance online courses and programs usually choose to join voluntarily and designers of such programs purposefully plan for them to be online from the start. In contrast, ERT is an emergency crisis based need to move teaching and learning to alternative environments until the crisis is averted or ended.

Preparing Faculty for Technology Dependency in the Post COVID 19 Era is a comprehensive guide that focuses on preparing pre-service teachers, in-service teachers, and higher education faculty to harness technology dependence in an emergency remote teaching era by discussing current and post-pandemic preparedness. Covering a wide range of topics such as digital reality, teacher preparedness, and technology dependency, this book is crucial for educators, administrators, pre-service teachers, researchers, academicians, and students.

Assessment and Learning in Content and Language Integrated Learning (CLIL) Classrooms Mark deBoer, Dmitri Leontjev, 2020-11-17

This volume builds a conceptual basis for assessment promoting learning in Content and Language Integrated Learning (CLIL) classrooms and proposes practical assessment approaches and activities that CLIL teachers can apply in the classroom. CLIL as an educational context is unique as language and content learning happen simultaneously. The efficacy of such instruction has been studied extensively, but assessment in CLIL classrooms has drawn much less attention. The present volume aims to fill this gap. Arranged based on different ways that content and language are integrated in CLIL, the chapters in this book together build a solid theoretical basis for assessment promoting learning in CLIL classrooms. The authors discuss how assessment eliciting this integration yields insights into learners' abilities, but more importantly, how these insights are used to promote learning. The contributors to the volume together build the understanding of classroom-based assessment as cyclic of teaching, learning, and assessment as inter-related, and of content and language in CLIL classrooms as a dialectical unity. This volume will spark interest in and discussion of classroom-based assessment in CLIL among CLIL educators and researchers, enable reflection of classroom assessment practices, and foster collaboration between CLIL teachers and researchers. The assessment approaches and activities discussed in the volume in turn will help educators understand the

scope of applications of assessment and inspire them to adapt these to their own classrooms Unlocking the Leader Within: A Medical Student's Guide to Practical Leadership EBOOK Hao-Hua Wu, Maria Ahmad, Aaron Qi Yang Goh, Hao-Kai Wu, 2025-04-21 Becoming a leader enables you to inspire galvanize and achieve your dreams as an aspiring healthcare provider Strong leadership skills are needed in modern clinical settings to enhance teamwork communication and collaboration Don't wait until you have completed training or are given a title to start on your leadership journey start today Unlocking the Leader Within A Medical Student's Guide to Practical Leadership is a unique and practical resource that equips you with real world strategies to succeed in patient centered care Discover 14 leadership principles that will allow you to excel as medical trainee This student focused text emphasizes that leadership principles are learned not innate Any person equipped with these 14 leadership principles can be a successful leader regardless of level of training An emphasis on how to optimize teamwork as a trainee makes this resource unique among leadership books and ideal for medical students and in training physician assistants and nurse practitioners as well as all professional health care providers Synthesizes the 14 most important leadership principles for medical trainees in two parts 8 skills for self mastery and 6 skills for effective teamwork Illustrates how popular leadership principles such as emotional intelligence conflict resolution avoiding burnout and confident humility can be applied in a healthcare setting Offers realistic examples of how to apply these principles to the critical parts of medical training **People's Christian Bulletin**, 1917 **Science Scope**, 1982 *Words for All Seasons* Linda Beech, 1990 *Study Skills in the Content Areas* Eunice Nicholson Askov, Karlyn Kamm, 1982 **The Publishers' Trade List Annual**, 1974 A Classified Catalogue of Educational Works in Use in the United Kingdom and Its Dependencies in 1887 ..., 1887 **Complete Concordance to Miscellaneous Writings** Albert Francis Conant, 1915
