**On the Essence of Language** Martin Heidegger, Yvonne Unna, 2004-09-15 This important early Heidegger text sheds new light on his later focus on language

Hertz** Martin Heidegger, 1971 **Poetry, Language, Thought** Martin Heidegger, 2001-11-06 Essential reading for students and anyone interested in the great philosophers this book opened up appreciation of Martin Heidegger beyond the confines of philosophy to the reaches of poetry In Heidegger's thinking poetry is not a mere amusement or form of culture but a force that opens up the realm of truth and brings man to the measure of his being and his world

Exile and Return as Poetics of Identity in Contemporary Anglo-Caribbean Literature Eleonora Natalia Ravizza, 2019-11-25 In contemporary Anglo-Caribbean literature the dialectic interrelations of exile and return are essential for conveying meta reflections on literature and language as well as the role they play in the construction of personal and collective identities While this volume focuses on the specificity of a cultural area whose history is marked by colonialism diaspora slavery and racial conflicts it also raises epistemological questions surrounding the complexity of literature and its function in a world which is ever more composite hybrid and transcultural By developing a new systematic approach which combines post colonial studies theories of intertextuality and philosophy of language it explores how contemporary literary texts reflect elaborate and redefine the experiences of societies that are currently dealing with ever growing global interdependencies and newly formed cultural and semiotic context

**Language and the Ineffable** Louis S. Berger, 2011-01-20 One's conception of language is central in fields such as linguistics but less obviously so in fields studying matters other than language In *Language and the Ineffable* Louis S Berger demonstrates the flaws of the received view of language and the difficulties they raise in multiple disciplines This breakthrough study sees past failures as inevitable since reformers retained key detrimental features of the received view Berger undertakes a new reform grounded in an unconventional model of individual human development A central radical and generative feature is the premise that the neonate's world is holistic boundary less unimaginable impossible to describe in other words ineffable completely distinct from what Berger calls adultocentrism The study is a wholly original approach to epistemology separate from the traditional interpretations offered by skepticism idealism and realism The work rejects both the independence of the world and the possibility of true judgment a startling shift in the traditional responses to the standard schema *Language and the Ineffable* evolves a unique conception of language that challenges and unsettles sacrosanct beliefs not only about language but other disciplines as well Berger demonstrates the framework's potential for elucidating a wide range of problems in such diverse fields as philosophy logic psychiatry general experimental psychology psychotherapy and arithmetic The reconceptualization marks a revolutionary turn in language studies that reaches across academic boundaries

*Heidegger's Philosophy of Religion* Ben Vedder, 2007 In various texts Martin Heidegger speaks of god and the gods but the question of how exactly Heidegger's thought relates to theology and religion in a broad sense and to God in a specific sense remains unclear and in need of careful philosophical excavation Ben Vedder provides the first book length study on Heidegger's relation to the philosophy of religion offering greater accessibility into an area that continues to fascinate philosophers theologians and all those interested in the philosophy of religion *Heidegger's Philosophy of Religion From God to the Gods* deals intimately with hotly debated topics such as Heidegger's interpretation of Saint Paul Nietzsche and the death of God ontotheology and Heidegger's discussion of the last god taking into account the early middle and later texts of Heidegger Significantly Vedder draws heavily on Heidegger's *The Phenomenology of Religious Life* long available in German but only recently available to English readers Vedder describes the tension between religion and philosophy on the one hand and religion and poetic expression on the other If we grasp religion completely from a philosophical point of view we tend to neutralize it but if we conceive it in a simply poetic way we tend to be philosophically indifferent to it Vedder demonstrates how Heidegger speaks a poetry of religion a description of humanity's relationship to the divine and why Heidegger's thinking is ultimately a theological thinking Clearly written and comprehensive in scope *Heidegger's Philosophy of Religion From God to the Gods* represents a major step forward in Heidegger scholarship

*Kinesis*, 2005 *The End of Theology* Carl A. Raschke, 2000 Publication of *The Alchemy of the Word* in 1979 brought the deconstructive philosophy of

Jacques Derrida into the arena of theological discourse marked the end of theology as it had been understood by many This work revised reissued as *The End of Theology* is an important contribution to understanding the possibilities of a creative postmodern secular theology The first chapter examines the aims the shortcomings of language analysis as used in the examination of religious theological statements The second chapter investigates the broader spectrum of modern theories about the nature of language The third chapter recapitulates the rudiments of Heidegger's thought The fourth chapter moves out of Heidegger toward a resolution of the problems of meaning interpretation in proposing a radical hermeneutics The fifth chapter discusses the way in which a radical hermeneutics must undermine conventional theological procedures secure a view of religious speech that is prior to God language or to the Word of God Such a view is directed to what Heidegger takes as the ordinary logos that is both a pre-Christian a post-Christian context of revelation The final chapter criticizes Heidegger's own mystifications about language endeavors to take his thought one major step beyond Carl Raschke is professor of religious studies at the University of Denver senior editor of the *Journal for Cultural Religious Theory* His major books include *The End of Theology* *Fire Roses* *Postmodernity the Thought of the Body* *The Engendering God* *Painted Black* *Theological Thinking*

**Japan's Frames of Meaning** Michael F. Marra, 2011 In *Japan's Frames of Meaning* Michael Marra identifies interpretative concepts central to discussions of hermeneutical practices in Japan and presents English translations of works on basic hermeneutics by major Japanese thinkers Discussions of Japanese thought tend to be centered on key Western terms in light of which Japanese texts are examined alternatively a few Buddhist concepts are presented as counterparts of these Western terms Marra concentrates on

Japanese philosophers and thinkers who have mediated these two extremes bringing their knowledge of Western thought to bear on philosophical reinterpretations of Buddhist terms that are thus presented in secularized form Marra focuses on categories relevant to the development of a history of Japanese hermeneutics calling attention to concepts whose discussion sheds light on how Japanese thinkers have proceeded in making sense of their own culture The terms are organized under three headings The first deals with koto which in Japanese means both things and words Koto is the center of a series of interesting compounds such as kotodama the spirit of words and makoto truth that have shaped Japanese discourses on philosophy ethics aesthetics and religion Writings on koto by twentieth century philosophers Watsuji Tetsuro 1889 1960 and Omori Shozo 1921 1997 and Edo period scholar Fujitani Mitsue 1768 1823 are included The second heading is dedicated to two well known aesthetic categories yugen and sabi which point to notions of depth in physical space as well as in the space of interiority The University of Kyoto aesthetician Ueda Juzo 1886 1973 guides the reader through a history of these concepts In the third part of the book notions of time in the form of ku emptiness and guzen contingency are examined through the work of Ueda s colleagues at Kyoto Nishitani Keiji 1900 1990 and Kuki Shuzo 1888 1941 Perceptive and erudite Japan s Frames of Meaning will become a landmark resource in particular for the insights and provocations it offers to contemporary cross cultural philosophical dialogue for anyone interested in traditional and modern Japanese thought
