Politics Why does the figure of the boss in its various guises loom so large in South Asia In answering this question the authors of this engagingly written book make a path breaking contribution to the study of South Asian politics John Harriss author of *India Continuity and Change in the Twenty First Century* **The Wild East** Barbara Harriss-White, Lucia Michelutti, 2019-09-23 *The Wild East* bridges political economy and anthropology to examine a variety of illegal economic sectors and businesses such as red sanders coal fire oil sand air spectrum land water real estate procurement and industrial labour The 11 case studies based across India Pakistan and Bangladesh explore how state regulative law is often ignored and or selectively manipulated The emerging collective narrative shows the workings of regulated criminal economic systems where criminal formations politicians police judges and bureaucrats are deeply intertwined By pioneering the field study of the politicisation of economic crime and disrupting the wider literature on South Asia's informal economy *The Wild East* aims to influence future research agendas through its case for the study of mafia enterprises and their engagement with governance in South Asia and outside Its empirical and theoretical contribution to debates about economic crimes in democratic regimes will be of critical value to researchers in Economics Anthropology Sociology Comparative Politics Political Science and International Relations Criminologists and Development Studies as well as to those inside and outside academia interested in current affairs and the relationship between crime politics and mafia enterprises **Nepal-UNAFEI Joint Seminar "Effective Countermeasures to Combat Organized Crime in Criminal Justice Processes"**, 2001

**International Journal of Comparative and Applied Criminal Justice**, 2016 [Crime-Terror Nexus in South Asia](#) Ryan Clarke, 2011-04-12 This book examines the crime terror nexus in South Asia focusing in particular on the activities of non state actors that operate out of Pakistan and challenges the conventional wisdom that the Pakistan Taliban TTP and Al Qaeda are Pakistan's most serious security threats Much research has focused on the policies of India and Pakistan towards Kashmir But surprisingly little attention has been paid to several notable Pakistan based non state actors who are increasingly operating on their own and who have the potential to greatly inhibit if not derail the peace process there These groups blur the line between terrorism and organized crime with serious implications for policy in the region India and Pakistan can engage in confidence building measures but if criminal actors such as Lashkar i Taiba LeT and D Company cannot effectively be controlled a lack of trust between both sides will remain Although the role of regular military forces is not to be discounted many of the non state actors in Indian Held Kashmir such as LeT are not confined by the same restraints as state forces thus allowing them engage in more violent actions without fear of reprisal In order for lawmakers security personnel and others to develop sound comprehensive policies these forces and their potential to undermine political initiatives must be fully appreciated This book explores the dynamics of the relationship between Pakistan D Company and LeT and how it affects strategic thought decision making and security interests in the region and explains the triangular relationships between states terrorist groups and organized criminal syndicates in general and in India and Pakistan in

particular This book will of much interest to students of South Asian politics terrorism organised crime war and conflict studies and Security Studies in general **Social Sciences Research Journal** ,2013 Resource Material Series ,1999 **Yearbook of International Organizations** ,1999 *Yearbook of International Organizations 2005/2006* ,2005-06 For the Yearbook of International Organizations the most up to date and comprehensive reference to international organizations the UIA has selected the most important 31 086 organizations from its extensive database of current and previous organizations Yearbook provides profiles of 5 546 intergovernmental and 25 540 international non governmental organizations active in nearly 300 countries and territories in the world today Organization descriptions listed in Volume 1 are numbered sequentially to facilitate quick and easy cross referencing from the other Yearbook Volumes Users can refer to Volumes 2 and 3 to locate organizations by region or subject respectively and comprehensive indexes are included Naturally the high standards of accuracy consistency and detail set by previous editions of the Yearbook of International Organizations have been maintained for this edition **International Review of Criminal Policy** ,1967 CJ International ,1995 Handwörterbuch der Kriminologie Alexander Elster,Heinrich Lingemann,Rudolf Sieverts,Hans Joachim Schneider,1966 **New Acquisitions** Unesco Institute for Education.
