Life Saving Drugs J. Mann,2004 In 1900 only a handful of drugs morphine quinine aspirin etc had genuine efficacy but had little value for bacterial or viral infections or cancer These conditions were usually untreatable Now there are literally thousands of drugs which offer cures or greatly extended life spans for those with life threatening conditions *Life Saving Drugs the Elusive Magic Bullet* describes the discovery and development of antibacterial anti viral and anti cancer

drugs The book highlights the colourful characters behind the inventions and the huge improvements in quality of life and life expectancy that these drugs have produced Emphasis is given to the new drugs that have emerged as a result of knowledge of the human genome and the ways in which the newer drugs are being designed to tackle disease particularly cancer at the genetic level Chemical structures are provided for all of the key drugs and the book is well illustrated Life Saving Drugs the Elusive Magic Bullet can be read as a history of drug development during the past 100 years by those with only a passing knowledge of chemistry For anyone entering the medical profession pharmacy or nursing it will provide a superb basic knowledge of all drugs they are ever likely to meet including their modes of action For the chemist or medicinal chemist it will provide the fundamental knowledge of life saving drugs that they all should know And for the non scientist who wants to know about super bugs SARS Ebola and all of the wonderful advances in treating cancer it is illuminating and easy to read
