Al Hidayah In Urdu:

Interpretations of Jihad in South Asia Tariq Rahman,2018-10-08 In the wake of radical Islamist terrorist attacks described as jihad worldwide and in South Asia it is imperative that there should be a book length study of this idea in this part of the world The focus of the study is the idea of jihad with its changing interpretations mostly those available in exegetical literature of key figures in South Asia The hermeneutic devices used to understand the meaning of the Quranic verses and the Prophetic traditions relating to jihad will be the focus of this study The main thrust of the study is to understand how interpretations of jihad vary It is seen as being both defensive and aggressive by traditionalists only defensive and mainly about moral improvement by progressive Muslims and being insurrectionist aggressive eternal and justifying violence against civilians by radical Islamists One purpose of the book is to understand how the radical interpretation came to South Asia The book also explains how theories about jihad are influenced by the political and social circumstances of the period and how these insights feed into practice legitimizing militant movements called jihad for that period

Muslim Endowments and Society in British India Gregory C. Kozlowski,2008-10-30 Dr Kozlowski s important study pioneers a fresh approach to the study of a critical Muslim institution the endowments or awqaf which almost everywhere in the Islamic world provide support for mosques schools and shrines The wealthier Muslims who establish endowments inevitably have an eye on social political and economic conditions and have traditionally used awqaf as part of an effort to preserve their wealth and influence especially in periods of change and uncertainty The book focuses on the use of endowments by Muslims suffering the dislocations caused by the imposition of British rule in India and examines in detail the social and political implications of the controversy over endowments that took place in the imperial courts and councils The author s observations and insights can be applied to many periods and places in the Muslim world and his novel approach will attract all those interested in the study of Islam
